10th World Congress and Expo on

Cell & Stem Cell Research

Stem Cell Research 2018

New York, USA
March 19-21, 2018

stemcell@conferenceseries.net;stemcell.conferenceseries.com

Invitation

New York, USA

Stem Cell Research 2018

Dear Attendees,

We are glad to announce the **10th World Congress and Expo on Cell & Stem Cell Research** to be held in **New York, USA** from **March 19-21, 2018** organized by **Conference Series LLC, USA** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Stem Cell Research-2018 has the platform to fulfill the prevailing gaps in the transformation of this science of hope, to serve promptly with solutions to all in the need. Stem Cell Research 2018 will have an anticipated participation of 120+ delegates across the world to discuss the conference goal.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

The success of the Cell Science conference series has given us the prospect to bring the gathering in New York, USA. Since its commencement in 2011 Cell Science series has witnessed around 1000+ researchers of great potentials and outstanding research presentations from around the world. Awareness of stem cells and its application is becoming popular among the general population. Parallel offers of hope add woes to the researchers of cell science due to the potential limitations experienced in the real-time.

We look forward to personally welcoming you to **New York, USA** this March 2018.

Sincerely,
Stem Cell Research 2018
Organizing Committee

About Us

New York, USA

Stem Cell Research 2018

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook fans Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

About Us

New York, USA

Stem Cell Research 2018

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

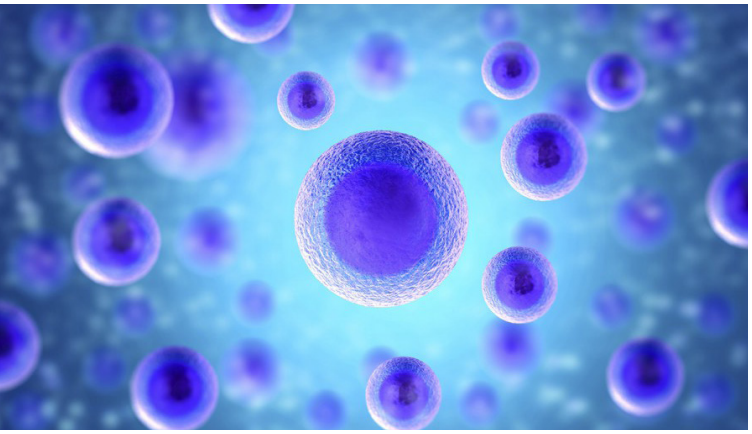

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by crossref

About Conference

New York, USA

Stem Cell Research 2018

Stem Cell Research 2018 will encompass recent researches and findings in stem cell technologies, stem cell therapies and transplantations, current understanding of cell plasticity in cancer and other advancements in stem cell research and cell science. Stem Cell Research 2018 will be a great platform for research scientists and young researchers to share their current findings in this field of applied science. The major scientific sessions in Stem Cell Research 2018 ill focus on the latest and exciting innovations in prominent areas of cell science and stem cell research.

How Conference Series Conferences differs from others?

- ✓ 3000+ Conferences across the globe in 30+ countries all through the year
- ✓ Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- ✓ Participation by Stalwarts from various international societies
- ✓ Internationally renowned speakers and scientists representation
- ✓ Career guidance for early career researchers and students
- ✓ Interesting scientific deliberations and discussions
- ✓ Perfect platform for Global Networking

Stem Cell Research 2018 salient features

- ✓ Meet Academia and Industry visionaries to get inspired
- ✓ Expand your knowledge and find solutions to problems
- ✓ Knowledge, Benchmarking and Networking offered at one place
- ✓ Forge connections and for global networking
- ✓ Highly Organized and Structured Scientific programs
- ✓ Poster presentations and world class exhibitions
- ✓ Meet with new vendors and suppliers

About Conference

New York, USA

Stem Cell Research 2018

Purpose

10th World Congress and Expo on Cell & Stem Cell Research is an arena for interdisciplinary exchange among professionals in the fields of Cell & Stem Cell Research.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Cell & Stem Cell Research present the most recent research findings, and promote and enhance scientific collaborations around the world

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Cell & Stem Cell Research
- Discuss and apply recent research findings related to Cell & Stem Cell Research
- Reflect on the place of critical distance in Cell & Stem Cell Research

About Conference

New York, USA

Stem Cell Research 2018

Who should attend

10th World Congress and Expo on Cell & Stem Cell Research is exclusively designed for Eminent personalities, Directors, CEO, Presidents, Vice-presidents, Organizations, Associations heads and Professors, Research scientists, Stem Cell laboratory heads, Post-docs, Students other affiliates related to the area of stem cell research.

Major sessions

- ✓ Stem Cells
- ✓ Stem Cell Therapy
- ✓ Stem Cell Apoptosis And Signal Transduction
- ✓ Stem Cell Transplantation
- ✓ Cell Signaling In Development
- ✓ Stem Cell Embryology
- ✓ Regeneration And Therapeutics
- ✓ Tissue Engineering
- ✓ Diseases And Stem Cell Treatment
- ✓ Novel Stem Cell Technologies
- ✓ Reprogramming Stem Cells: Computational Biology
- ✓ Tumour cell science
- ✓ Stem Cell Banking
- ✓ Cellular Plasticity And Reprogramming
- ✓ Epigenetics
- ✓ Cell And Gene Therapy
- ✓ Stem Cell Biomarkers
- ✓ Cell And Organ Regeneration
- ✓ Stem Cell Niches
- ✓ Drugs And Clinical Developments
- ✓ Stem Cells And Veterinary Applications
- ✓ Plant And Cell Physiology
- ✓ Cell Differentiation And Disease Modelling
- ✓ Stem Cell Medicine: Social And Political Challenges

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

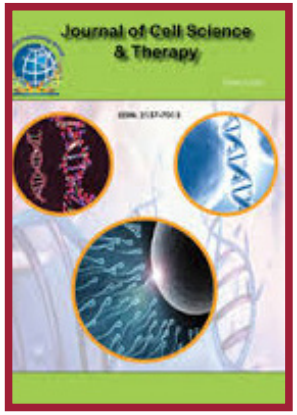

About Conference

New York, USA

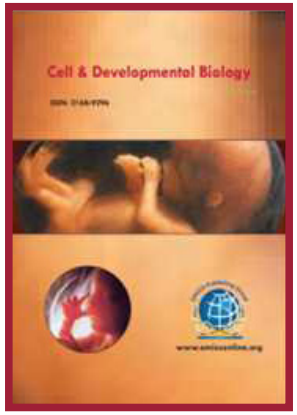

Stem Cell Research 2018

Supporting Journals

- ✓ Journal of Cell Science & Therapy
- ✓ Journal of Stem Cell Research & Therapy
- ✓ Cell & Developmental Biology

About Paris

New York, USA

Stem Cell Research 2018

New York is a state in the northeastern United States, and is the 27th most extensive, 4th most populous and 7th most densely populated U.S. state. The state has a maritime border in the Atlantic Ocean with Rhode Island, east of Long Island, in addition to an international border with the Canadian provinces of Quebec to the north and Ontario to the west and north. New York is surrounded by New Jersey and Pennsylvania to the south and Connecticut, Massachusetts, and Vermont to the east. The state of New York, with an estimated 19.8 million residents in 2015, is often referred to as New York State to distinguish it from New York City, the state's most populous city and its economic hub.

New York's gross state product in 2015 was $1.44 trillion. If New York State were an independent nation, it would rank as the 12th or 13th largest economy in the world. However, in 2013, the multi-state, New York City-centered Metropolitan Statistical Area produced a gross metropolitan product (GMP) of nearly US$1.4 trillion, while in 2012, the corresponding Combined Statistical Area generated a GMP of over US$1.55 trillion, both ranking first nationally by a wide margin and behind the GDP of only twelve nations and eleven nations, respectively.

Testimonials of 2015-16

New York, USA

Stem Cell Research 2018

Paul J. Davis, MD
Professor of Medicine, Albany Medical College, USA
Professor of Pharmacology, Albany College of Pharmacy and Health Sciences, USA
The recent Stem Cell Congress in Chicago was, from the scientific standpoint, the highest quality and most useful of the three OMICS-sponsored conferences that I have attended. The presentations I heard were uniformly good.
I'd be pleased to see such meetings have a larger audience.

Simon Berkovich
The George Washington University,USA
I have received very positive feedback from Chen Shen who presented our work in Chicago and got in contact with many different people interested in our research.

Diana Anderson
University of Bradford, UK
I just want to say how much I enjoyed the meeting in Chicago. I always find the meetings ex¬tremely stimulating and very interactive. The quality of the presentations is very good and some of them are very thought-provoking.
In general, all your meetings I attend are of high quality.
I hope to come to Philadelphia next year.

Zhenyi Huo
BestStem Biotech
It was a great opportunity to meet scientists, scholars and research workers in the cellular field in Chicago last week. And also I would particularly thank you for your effort to list Best Stem Biotech as one of the supporting partners for the 5th World Congress on Cell & Stem Cell Research.
I do hope we could work as partners for future events organized by OMICS and also explore the possibility to organize the similar events in regenerative medicines in China some day. Probably, at the convenience of your executives/managers, I would like to pay a visit with them.
Talk to you later,

Christian Drapeau
Chief Scientific Officer
Stemtech International, Inc.
From what I have seen, the organization was very good. I am always impressed by the quality of presenters and the opportunity for contacts that can be made at the OMICS conferences.
Thank you for your support,

Organizing Committee 2017
