Session 12: Innovative Surgical Techniques

Panel discussions and Reviews

Young Research Forum

(Panel discussions and Reviews)

Coffee Break: Networking & Refreshments

B2B Meetings

Closing Ceremony

Venue & Accommodation

London, UK

London, UK

London, the capital of England and the United Kingdom, is a 21st-century city with history stretching back to Roman times. Standing on the River Thames, London has been a major settlement for two millennia, its history going back to its founding by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 2.9 km2 mediaeval boundaries and in 2011 had a resident population of 7,375; making it the smallest city in England. Since at least the 19th century, the term London has also referred to the metropolis developed around this core. The bulk of this conurbation forms the Greater London administrative area, governed by the Mayor of London and the London Assembly. London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transport. It is one of the world's leading financial centres. London is a world cultural capital. London's 43 universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to host the modern Summer Olympic Games three times.

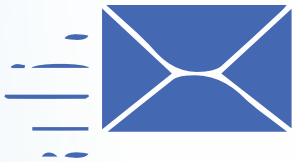

Important Dates

Abstract Submission Opens: September 26, 2023

Registration Opens: September 26, 2023

Early Bird Registration: January 14, 2023

On Spot Registration: March 14, 2024
