Surgical Pathology 2018

Invitation

Dear Colleagues,

Surgical Pathology 2018 welcomes you to attend the 14th International Conference on Surgical Pathology & Cancer Diagnosis to be held on March 19-21, 2018 at the beautiful city of London, UK with the theme *"Insights of Anatomy with Surgical Pathology and Cancer Research"*. Surgical Pathology and Cancer Diagnosis Congress is the premier meeting for students, postdoctoral fellows, research staff and principal investigators studying various aspects related to the importance of Surgical Pathology in Cancer Diagnosis. All the delegates coming here won't miss the chance to meet and create network with the gaints in the field of Pathology and Cancer Research, where you can build relationships that are key to future collaborations.

Conference Highlights

1. Surgical Pathology and Diagnosis
2. Cancer Pathology
3. Breast Pathology
4. Oral and Maxillofacial Pathology
5. Gynecologic Pathology
6. Gastrointestinal and Liver Pathology
7. Neuro Surgery and Pathology
8. Genitourinary Pathology
9. Bone and Soft Tissue Pathology
10. Dermatopathology
11. Histologic Pathology
12. Cytopathology
13. Hematopathology
14. Head and Neck Surgery

Conference Attendees..

All honorable authors, researchers, scientists and students are encouraged to contribute through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, research oriented, experimental or theoretical work in all areas of are warmly invited for presentations at the conference.

Surgery: Current Research

Archives in Cancer Research

Journal of Clinical & Experimental Pathology

Speaker's PPT

You may submit your presentation to any of our onsite organizers on the day of your talk. If your presentation is not compatible with our laptops, then you may also use your own laptop.

Youth Forum

Young Researchers can also participate

Eligibility

Young Investigators (e.g. Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty) are the focus of this event.

Participants should be below the age of 33 years.

Opportunity for young researchers to learn about the research areas of their peers to increase their capacity as multidisciplinary researchers

Benefits

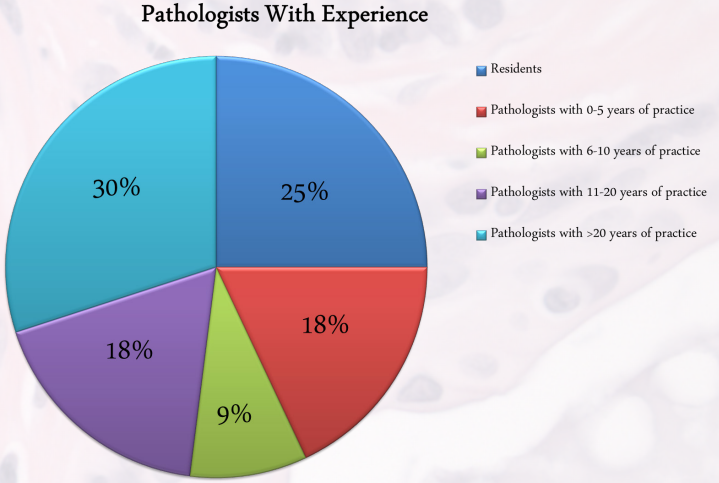

The forum will provide an opportunity for collegial interaction with other speakers and established celebrative across the globe.

Young Researcher Award will be given to the best presentation by the organizing committee member.

Market Analysis

The global surgical/operating microscopes market is projected to reach USD 915.6 Million by 2021 from USD 508.1 Million in 2016, growing at a CAGR of 12.5% during the forecast period.

Globally, surgical microscopes market is divided on the basis of region, application and end user. On the basis of application, the market is broadly segmented into neuro and spine surgery, plastic surgery, reconstructive surgery, gynecology, urology, oncology, dentistry, ophthalmology, ENT surgery, and documentation. In 2016, the neuro and spine surgery segment is expected to account for the largest share of the market. Factors attributing to the growth of this segment are the increasing demand for surgical microscopes in neurosurgery. However, the oncology segment is expected to grow at the highest CAGR during the forecast period due to the increasing prevalence of cancer across the globe

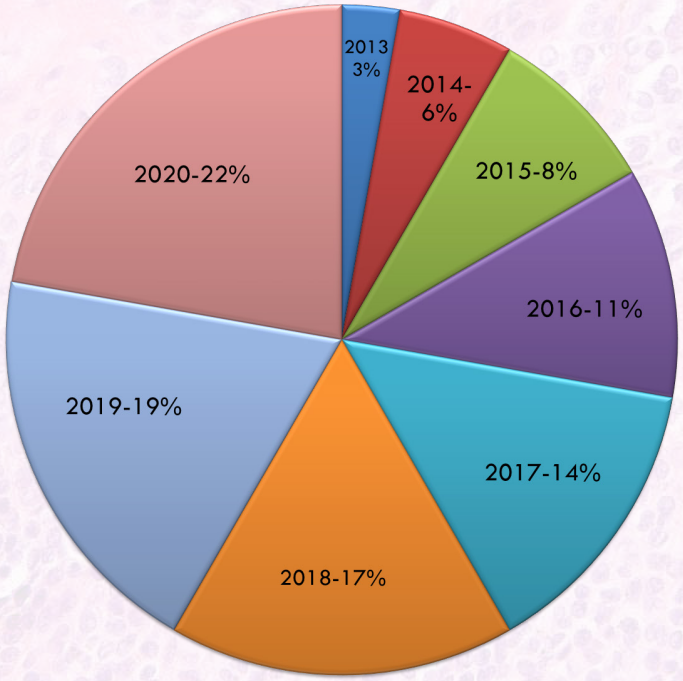

On the basis of end user, the market is segmented into hospitals and outpatient facilities. In 2016, the hospitals segment is expected to account for the largest share of the market. The increasing use of fluorescence image-guided surgery (FIGS), increase in the number of surgeries and growing demand for MIS, advancements in healthcare facilities, technological advancements, and customized microscopy solutions are the key factors driving the growth of the global market. However, factors such as high cost of advanced surgical microscopes, implementation of excise tax by the U.S. government are restraining the growth of this market to a certain extent..

Market Analysis

The surgical microscopes market is dominated by established players such as Novartis AG (Switzerland), Danaher Corporation (U.S.), Topcon Corporation (Japan), Carl Zeiss AG (Germany), and Haag-Streit Surgical (Germany).

Geographically, North America is expected to account for the largest share of the market in 2016. Growing demand for invasive surgical procedures, infrastructural advancements in healthcare facilities, increase in the number of surgeries etc., are the main factors which is driving the growth of the North American surgical microscopes market. Compared to the mature markets, the Asia-Pacific region is expected to grow at the highest CAGR during the forecast period. Growth in this market is propelled by factors such as improving R&D infrastructure, rising focus of market players on this region, and increasing government initiatives.

Expected Market Growth from 2013-2020

Market Analysis

Major players operating in the surgical microscopes market include Novartis AG (Switzerland), Danaher Corporation (U.S.), Topcon Corporation (Japan), Carl Zeiss AG (Germany), and Hagg-Streit Surgical (Germany),

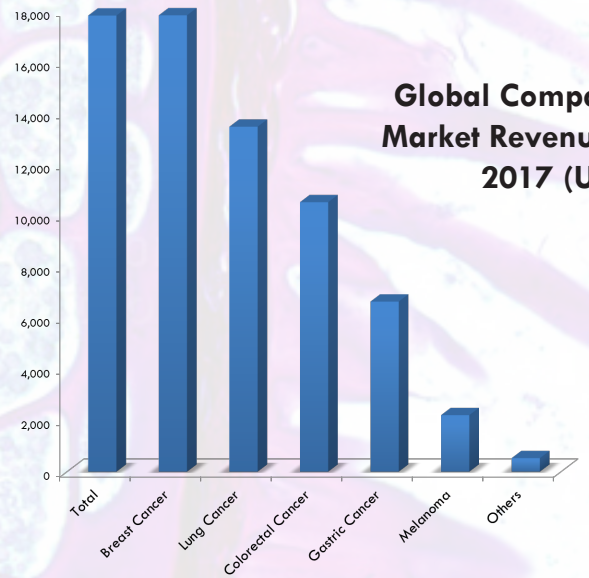

Stakeholders:

- Hospitals and Clinics
- Research Institutes
- Clinical Research Organizations (CROs)
- Market Research and Consulting Firms
- Authorities Framing Reimbursement Policies for Use of Cancer Diagnostics
- Companies Offering Platforms and Technologies for Cancer Diagnosis
- Market Research
- Consulting Firms
- Scope of the Report

The market study doesn't cover the market size in terms of volume Some companies in this market are privately owned and their revenues are not available in the public domain. Hence, revenue for those companies are not included in this report

Company developments not reported in the public domain are not included in this report

Global Companion Diagnositics Market Revenues, by Indications, 2017 (USD Million)

Global Companion Diagnostics Market Revenues, by Indications, 2017 (USD Million)

Past Conference Report

13th International Conference on Surgical Pathology and Practice was organized during **March 27-28, 2017** at **Madrid, Spain.** With the support and contribution of the Organizing Committee Members, we successfully hosted the event at the conference venue.

The conference was organized around the theme "Insights of Anatomy with Surgical Pathology". The event implanted a firm relation of upcoming strategies in the field of surgery, pathology and research with the scientific community. The conceptual and applicable knowledge shared, will also foster organizational collaborations to nurture scientific accelerations.

The conference proceedings were carried out through various Scientific-sessions and plenary lectures of which the following Speakers were highlighted as Keynote speakers: Calvo Manuel Felipe, Complutense University of Madrid, Spain, Jose Manuel Baena, BRECA Healthcare, Spain, Jürgen Hescheler, University of Cologne, Germany, Shahla Masood, University of Florida College of Medicine, USA.

Programme details

Day 1 / March 19, 2018

	Time	Session
Morning	**08:00 - 09:00**	**Registration /Reception**
	09:00 - 09:15	Inaugural Address
	09:15 - 10:45	Keynote/Plenary Talk
	10:45 - 10:50	Group Photo
	10:50 - 11.00	**Coffee/Tea Break**
	11:00 - 13:00	Sessions
	13:00 - 13:30	**Lunch Break**
Evening	13:30 - 15:30	Sessions
	15:30 - 15:45	**Coffee/Tea Break**
	15:45 - 17:30	Sessions

Day 2 / March 20, 2018

	Time	Session
Morning	**08:00 - 09:00**	**Registration /Reception**
	09:00 - 09:15	Inaugural Address
	09:15 - 10:45	Keynote/Plenary Talk
	10:45 - 10:50	Group Photo
	10:50 - 11.00	**Coffee/Tea Break**
	11:00 - 13:00	Sessions
	13:00 - 13:30	**Lunch Break**
Evening	13:30 - 15:30	Sessions
	15:30 - 15:45	**Coffee/Tea Break**
	15:45 - 17:30	Sessions

Day 3 / March 21, 2018

Time	Session
Time	**Session**
09:00 - 10:00	Keynote/P lenary Talk
10:00 - 10:15	**Coffee/Tea Break**
10:15 - 13:00	Sessions
13:00 - 13:30	**Lunch Break**
13:30 - 15:30	Sessions
15:30 - 15:45	**Coffee/Tea Break**
15:45 - 17:30	Sessions
Netowrking & B2B Meeting	
Closing & Award ceremony	

The Salient Key points of Surgical Pathology 2018

- The Career Guidance Workshops to the Graduates, Doctorates and Post-Doctoral Fellows
- Accepted Abstracts will be published in the respective journals and will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref (Free abstract publishing).
- Lifetime Speaker and Abstract pages created and indexed in Google on your name, would get worldwide acknowledgment to your profile and Research.
- Group of attendees from the same lab/institute/university (or) anyone who wish to attend the conference will be eligible for discounts.
- For Students Best Poster and Young Researcher Award.

About City

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. It was founded by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km2) medieval boundaries. Since at least the 19th century, "London" has also referred to the metropolis around this core, historically split between Middlesex, Essex, Surrey, Kent, and Hertfordshire, which today largely makes up Greater London, governed by the Mayor of London and the London Assembly. The top 10 most visited attractions of London are:

- *The British Museum*
- *The National Gallery*
- *Natural History Museum*
- *Southbank Centre*
- *Tate Modern*
- *Victoria and Albert Museum*
- *Science Museum*
- *Somerset House*
- *National Portrait Gallery*
- *Tower of London*
