Tentative Program

6th International Conference on

Tissue Engineering and Regenerative Medicine

August 23-24, 2017 San Francisco, USA

Theme: "Importance of Tissue Engineering and Regenerative Medicine for the future of health care"

For Available Speaker Slots

Major Scientific Sessions

- Tissue Regeneration using Nanotechnology
- Tissue Regeneration
- Biological Tissue Substitutes
- Organ Engineering
- Trends in Tissue Engineering
- Bone Tissue Engineering
- Cell Culture & Bio Reactors
- Patient Specific Drug Discovery
- Tooth Regeneration
- Regenerative medicine
- Applications of Tissue Engineering
- Regenerative Medicine Market
- Embryonic Stem Cell
- Stem Cell Transplant

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors
