Tissue Science 2020

International Conference on

TISSUE SCIENCE AND REGERNATIVE MEDICINE

November 02-03, 2020 | Rome, Italy

Theme: Redefining Health Care through Tissue Engineering

B2B MEETINGS

2	15+	80+	20+
Days Of Scientific Exchange	Scientific Sessions	International Expert Faculty Members	Exhibitors

INVITATION

Dear Colleagues

Conference Series llc LTD., is delighted to welcome you to Rome, Italy for the Prestigious "International Conference on Tissue Science and Regenerative Medicine" focus on "Redefining Health Care through Tissue Engineering" and we are confident that you will enjoy the Scientific Program of this upcoming Conference

We look forward to see you at Rome, Italy.

With Regards,

Tissue Science 2020

Organizing Committee, Conference Series llc LTD

EDITORIAL BOARD MEMBERS OF SUPPORTING JOURNALS

Yulong Yin
Nanchang University, China

Ming Pei
West Virginia University School of Medicine, USA

Shang-Tian Yang
The Ohio State University, USA

Gerald Schatten
University of Pittsburgh, USA

Rouel S Roque
Touro University Nevada, USA

Dilhan Kalyon
Stevens Institute of Technology, USA

Lidan You
University of Toronto, Canada

Akhilesh k Sista
Stanford University School of Medicine, USA

Arlene Gwon
University of California-Irvine, USA

Syam P. Nukavarapu
University of Connecticut, USA

PROGRAM ANNOUNCEMENT

Venue: Rome, Italy

Abstract Submission Opens: **January 01, 2020**

Registration Opens: **December 15, 2019**

Early Bird Registration: **January 10, 2020**

Mid Date Registration: **May 30, 2020**

On Spot Registration: **January 03, 2020**

Accommodation

A large number of rooms have been reserved. Discounted room rates for Tissue Science 2020 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field Tissue Science and Regenerative Medicine.

Tissue Science 2020

ABOUT ROME

Rome, Italy’s capital is a sprawling, cosmopolitan city with nearly 3,000 years of globally influential art, architecture and culture on display. Ancient ruins such as The Forum and the Coliseum evoke the power of the former Roman Empire. Vatican City, headquarters of the Roman Catholic Church, has St. Peter’s Basilica and the Vatican Museums, which house masterpieces such as Michelangelo’s Sistine Chapel frescoes.

Rome's history spans more than two and a half thousand years. While Roman mythology dates the founding of Rome at only around 753 BC, the site has been inhabited for much longer, making it one of the oldest continuously occupied sites in Europe. The city's early population originated from a mix of Latin’s, Etruscans and Sabine’s. Eventually, the city successively became the capital of the Roman Kingdom, the Roman Republic and the Roman Empire, and is regarded as one of the birthplaces of Western civilization and by some as the first ever metropolis. It is referred to as "Roma Aeterna" and "Caput Mundi" two central notions in ancient Roman culture. In 1871 Rome became the capital of the Kingdom of Italy, and in 1946 that of the Italian Republic.

Rome has the status of a global city. Rome ranked in 2014 as the 14th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. Its historic Centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Coliseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year. Rome hosted the 1960 Summer Olympics and is the seat of United Nations' Food and Agriculture Organization.

Vatican City

The Pantheon

Trevi Fountain

Santa Maria Maggiore

Baths of Caracalla

San Giovanni in Laterano
