ABOUT VENUE

PARIS, FRANCE

Paris, city and capital of France, situated in the north-central part of the country. People were living on the site of the present-day city, located along the Seine-River" Seine River some 233 miles (375 km) upstream from the river's mouth on the English-Channel" English Channel (La Manche), by about 7600 BCE. The modern city has spread from the island (the Île de la Cité) and far beyond both banks of the Seine.

Paris is no stranger to nicknames, 'Lutèce', 'Paname', 'Pantruche' and even 'the City of Light'.

Among the long list of things the city of Paris is known for, its nickname as the City of Love is the most romantic. Just as it did with lots of artists who settled there years ago, Paris inspires millions of visitors every year.

For centuries Paris has been one of the world's most important and attractive cities. It is appreciated for the opportunities it offers for business and commerce, for study, for culture, and for entertainment; its gastronomy, haute couture, painting, literature, and " intellectual " community especially enjoy an enviable reputation. Its " sobriquet "the City of Light" ("la Ville Lumière"), earned during the Enlightenment, remains appropriate, for Paris has retained its importance as a centre for education and intellectual pursuits.

From the iconic Eiffel Tower to Montmartre's art district to the Arc De Triomphe, there is no shortage of sights to make visitors fall in love with the romance of Paris.

To make the most of your visit, here is our list of the top 20 things to do in paris.
