Sincerely,
Transplantation 2020
Organizing Committee

What is Transplantation 2020 ?

Conference series invite all the participants over the earth to take part in **'13th International Conference on Transplantation and Medical Surgery**' to be held during October 14-15, 2020 at Prague, Czech Republic which cover prompt keynote presentations, Oral talks, Poster presentations and Exhibitions.

Conference series LLC Ltd which organizes 1000+ Global events regularly is glad to welcome all the interested and enthusiastic participants across the sphere to its prestigious Conference on Global Surgery and Transplantation which goes to be held during October 14-15, 2020 at Prague, Czech Republic Transplantation 2020 highlights the theme **"Innovations, Outcomes and New Technologies in Transplant Surgery".** Transplantation 2020 provides a wonderful opportunity to share views, exchange knowledge and establish research collaborations & networking. The most aim of this conference is to exchange new scientific and clinical information within the field of transplantation bringing together among the transplant surgeons, physicians, scientists, organ procurement personnel, pharmacologist, nurses and other allied health professionals under a roof.

Why to attend?

Medical doctors, patients and health care providers consider the Solid organ transplantations save lives in patients laid low with terminal organ failures and improve quality of life. Transplantation is a vital tool to boost the overall health status of the population. Kidney transplantation increases patient continuity over dialysis, and lifesaving transplants are indispensable to treat patients with liver, heart, or lung irreversible diseases. The proportions of individuals laid low with the disease are expected to extend in future according a recent statistical survey daily, a mean of 79 people receive organ transplants. However, a mean of 21 people dies daily awaiting transplants that can't happen due to the

shortage of donated organs. In 2013, 28,954 people received organ transplants. According to recent statistics, Realizing this imperative, OMICS Group is about to arrange Global Surgery and Transplantation Congress this year with a view to reinforce research and promote awareness aiming in developing solutions for the challenges encountered. Transplantation 2020 will comprise of the many leading keynote speakers and session speakers who are going to be delivering their speech on the present research topics of bone marrow transplantation, survival in kidney transplantation, novel hair transplantation methods, and other technologies related to Transplantation and other risk factors associated with the Transplantation. Junior researcher and the student participants will gain the chance to grab the simplest billboard Award by presenting their work as an advert presentation and Young Researcher Forum.

Host City

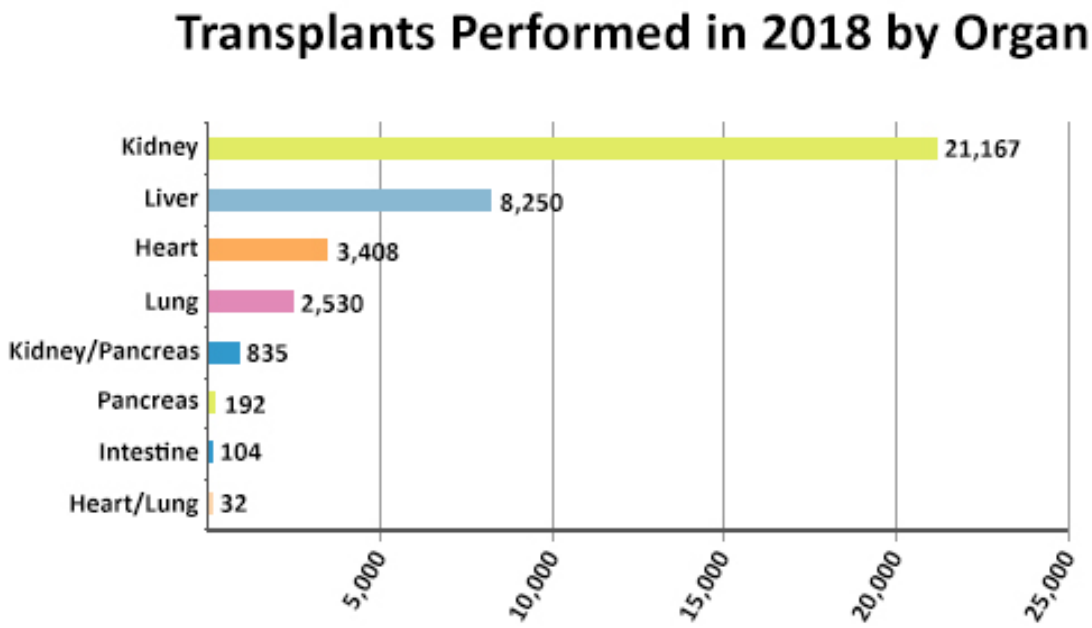

Prague is the capital and largest city in the Czech Republic, the 14th largest city in the European Union and the historical capital of Bohemia. Prague has become one of the world's most popular tourist destinations. Prague ranked sixth in the Trip advisor world list of best destinations in 2018. Its rich history makes it a popular tourist destination. The region city of Prague is an important centre of research. Some well-known multinational companies have established research and development facilities in Prague. The city thrives in trade and commerce and has a vibrant culture seeped in commerce. Advanced Materials and Nano Science development in Prague is getting more active, where many institutions from several ministries have been involved seriously. Prague's economy accounts for 25% of the Czech GDP making it the highest performing regional economy of the country. As of 2017 its GDP per capita in purchasing power standard is €56,200, making it the sixth best performing region in the EU at 182.4 per cent of the EU-28 average in 2016. The manufacturing and construction industry, in contrast, employ half a million residents of Prague, which is about 11 percent of the employable population of Prague. Prague is also a windy city with common sustained western winds and an average wind speed of that often help break temperature inversions and clear the air in cold month

Market analysis

Transplantation 2020 is delighted to invite all the participants across the globe to the prestigious event, which is going to be held during October 14-15, 2020 at Prague, Czech Republic. The main aim of this conference is to exchange the new scientific and clinical information relevant to solid organ transplantation and brings together transplant physicians, scientists, nurses, organ procurement personnel, pharmacists, allied health professionals and other transplant professionals. The theme of the conference is “13th International Conference on Transplantation and Medical Surgery”. A different types of formats are planned that will support an interchange of opinions regarding care and management issues, as well as socioeconomic, ethical, and regulatory issues relevant to organ transplantation.
