Organizing Committee

What is Anesthesia 2021 ?

Conference series invite all the participants over the earth to take part in '14th International Conference on Transplantation and Medical Surgery' to be held during March 22-23, 2021 at Webinar which cover prompt keynote presentations, Oral talks, Poster presentations and Exhibitions.

Conference series LLC Ltd which organizes 1000+ Global events regularly is glad to welcome all the interested and enthusiastic participants across the sphere to its prestigious Conference on Global Surgery and Transplantation which goes to be held during March 22-23, 2021 at webinar Transplantation 2021 highlights the theme "Innovations, Outcomes and New Technologies in Transplant Surgery". Transplantation 2021 provides a wonderful opportunity to share views, exchange knowledge and establish research collaborations & networking. The most aim of this conference is to exchange new scientific and clinical information within the field of transplantation bringing together among the transplant surgeons, physicians, scientists, organ procurement personnel, pharmacologist, nurses and other allied health professionals under a roof.

Why Attend?

Medical doctors, patients and health care providers consider the Solid organ transplantations save lives in patients laid low with terminal organ failures and improve quality of life. Transplantation is a vital tool to boost the overall health status of the population. Kidney transplantation increases patient continuity over dialysis, and lifesaving transplants are indispensable to treat patients with liver, heart, or lung irreversible diseases. The proportions of individuals laid low with the disease are expected to extend in future according a recent statistical survey daily, a mean of 79 people receive organ transplants. However, a mean of 21 people dies daily awaiting transplants that can't happen due to the shortage of donated organs. In 2014, 28,954 people received organ transplants.

According to recent statistics, Realizing this imperative, OMICS Group is about to arrange Global Surgery and Transplantation Congress this year with a view to reinforce research and promote awareness aiming in developing solutions for the challenges encountered. Transplantation 2021 will comprise of the many leading keynote speakers and session speakers who are going to be delivering their speech on the present research topics of bone marrow transplantation, survival in kidney transplantation, novel hair transplantation methods, and other technologies related to Transplantation and other risk factors associated with the Transplantation.
