Tentative Program 2020

4th International conference on

Tumor & Cancer Immunology and Pediatric-Oncology

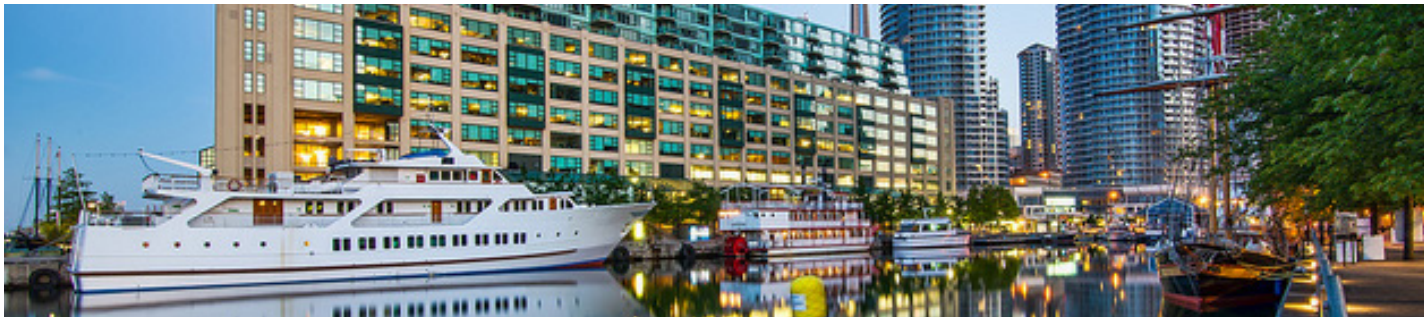

May 08-09, 2020

Toronto, Canada

W: https://cancerimmunology.conferenceseries.com/ | E: cancerimmunology@eventsupporting.org

Day 1: May 08, 2020	
Conference Hall	
08:00-09:00	Registrations
09:00-09:30	Opening Ceremony & Introduction
KEYNOTE SPEAKER FORUM	
Speaker Session 1	Title: Anti-cancer preparation NSC-631570 (UKRAIN) in the treatment of malignant melanoma and Xeroderma pigmentosum
	Wassil Nowicky , Director of Nowicky Pharma, Austria
Panel Discussion	
Networking & Refreshment Break | 10:30-10:50	
Speaker Session 2	Title: S100A9 inhibitor Tasquinimod: A novel strategy to inhibit small cell lung cancer progression and metastasis
	Salha Sassi, USA
Speaker Session 3	Title: Correlation between Aryl hydrocarbon receptor and IL-17+ and Foxp3+ lymphocytes infiltration in bladder cancer
	Negar Ayati, Shahrekord University of Medical Sciences, Iran
Speaker Session 4	Title: Novel ssDNA aptamers targeting immune checkpoint proteins as a promising agents for cancer immunotherapy and theranostics
	Edyta Żyła, Jagiellonian University, Poland
Speaker Session 5	Title: Glyphosate in Monsanto's RoundUp does not cause cancer: Nanoparticles to aid leaf penetration produce UV radiation that damages DNA leading to cancer
	Thomas Prevenslik, QED Radiations, Germany
Speaker Session 6	Title:Removal of methyl factor from promoter region of genes silenced by prostate cancer agent by oleoropine
	Amirhossein Alimohammadian, Turkey
Speaker Session 7	Title: Validation of novel growth-promoting and growth-suppressing genes in neuroblastoma cells
	Dalia Hammouche, University College London, UK
Speaker Session 8	Title: Frequency of B IL-10+ CD19+ cells in patients with prostate cancer compared to patients with benign prostatic hyperplasia
	Amirsaman Keikhosrokiani, Shahrekord University of Medical Sciences, Iran
Speaker Session 9	Title: Plasma thermograms: A new approach for cancer biomarker studies
	Nichola C Garbett, University of Louisville School of Medicine, USA
Speaker Session 10	Title: A 3D imaging platform to determine the level of genomic instability in cancer
	Sabine Mai, University of Manitoba, Canada
Speaker Session 11	Title: TBA
	Speaker Slot Available
Panel Discussion & Group Photo	
Day 2: May 09, 2020	
Scientific Session/Tracks	
Tumors | Pediatric Oncology | Tumor Immunogenicity | Immune Checkpoint inhibitors | Cancer Vaccines | Radiology and Imaging in Cancer | Tumor immunotherapy research	
Session Introduction	
Session Chair: TBA	
Session Co-Chair: TBA	
Speaker Forum	

Speaker Session 12	Title: Herbal Immunomodulators : Role of Triphala in Immune-Enhancement of Human Leukocytes
	T. Dinesh Kumar, SRM University, India
Speaker Session 13	Title: To investigate the effect platelet polyP on the expression of Cyclin D1 and MMP-7 in MCF7 Cells
	Fatemeh Ariakia, Mashhad University of Medical Sciences, Iran
Speaker Session 14	Title: Synthesis, in vitro Anticancer and Antimicrobial Evaluation of Novel Substituted Dihydropyrimidines
	Kulbhushan Rana, S. D. College Barnala, India
Speaker Session 15	Title: NRF2-mediated changes in glutathione metabolism mediate the resistance of EGFR-T790M mutant lung cancer cells to erlotinib
	Olivier E Pardo, Imperial College London, UK
Speaker Session 16	Title: Early diagnosis of ovarian carcinoma: Is it possible?
	Liane Deligdisch, Mount Sinai School of Medicine, USA
Continue...	
Scientific Session/Tracks	
Nutraceuticals in Cancer Therapy | Organ-Defined Cancers | Carcinoma | Oncology Nursing and Care | Breast Cancer | Cancer Biomarkers | Engineered T-Cell Therapy	
Speaker Session 17	Title: HSV Oncolytic vectors (oHSV) armed with the NKG2D ligand ULBP3 enhances treatment of gliomas
	Joseph C. Glorioso, University of Michigan School of Medicine, USA
Networking & Refreshment Break	
Speaker Session 18	Title: Circulating Cell-free DNA (ccf-DNA) in cancer patients: From DNA integrity index to liquid biopsy
	Azza Mahmoud Kamel, Cairo Universit, Egypt
Speaker Session 19	Title: Benign Tumors & Diagnosis
	Anil Batta, GOVT.Medical College, India
Speaker Session 20	Title: CargocyteTM Biofactories: A New Versatile Cell Therapy Platform for Delivery of a Wide Range of Biologics
	Richard L. Klemke, University of California, USA
Speaker Session 21	Title: Circulating Cell-free DNA (ccf-DNA) in cancer patients: From DNA integrity index to liquid biopsy
	Azza Mahmoud Kamel, Cairo Universit, Egypt
Speaker Session 22	Title: Putting Evidence into practice: Use of sodium bicarbonate for management of mucositis in patients with childhood cancers in low income setting
	Nadya Bahkam, Moi Teaching and Referral Hospital, Kenya
Speaker Session 23	Title: Knowledge, attitude and practice towards hepatitis (IFF SHEWA) in adigrat, Ethiopia, 2017/2018
	Fana Gidey, Kelemwork Tafere, Ethiopia
Video Presentation	
Session 01	Title: TBA
	Speaker Slot Available
Session 02	Title: TBA
	Speaker Slot Available
Panel Discussion	
Group Photos	
Day Concludes…
