ABOUT VENUE

PARIS, FRANCE

Paris, city and capital of France, situated in the north-central part of the country. People were living on the site of the present-day city, located along the Seine River some 233 miles (375 km) upstream from the river's mouth on the English Channel (La Manche), by about 7600 BCE. The modern city has spread from the island (the Île de la Cité) and far beyond both banks of the Seine. For centuries Paris has been one of the world's most important and attractive cities. It is appreciated for the opportunities it offers for business and commerce, for study, for culture, and for entertainment; its gastronomy, haute couture, painting, literature, and intellectual community especially enjoy an enviable reputation. Its sobriquet "the City of Light" ("la Ville Lumière"), earned during the Enlightenment, remains appropriate, for Paris has retained its importance as a centre for education and intellectual pursuits.

Paris is positioned at the centre of the Île-de-France region, which is crossed by the Seine, Oise, and Marne rivers. In its location on the western side of Europe and in a plain relatively close to the sea, Paris benefits from the balmy influences of the Gulf Stream and has a fairly temperate climate.

it's no surprise it's one of the most popular tourist destinations in the world as its famous for its art, culture and history. Paris is full of top attractions, museums, art galleries, things to do and places to go no matter what time of year you're planning on going.Paris is synonymous with art and the city has numerous art galleries showcasing some of the best masterpieces from around the world, from pre-history to the Renaissance, contemporary and classic. One of the most famous art galleries is the Louvre Museum, home to the iconic Mona Lisa. This historic building dates back to the 12th century when it was originally a fortress, before it was a palace in the 16th century, later becoming a museum in 1793. You can't miss the iconic glass pyramid in the courtyard in front. Across the River Seine, the Musée d'Orsay is another must-see art Paris art gallery. The Beaux Arts architecture makes it one of the most impressive buildings in Paris, not to mention the world-class art and sculpture featured within. If you like something a bit more modern, the Centre Pompidou is another brilliant art gallery featuring a wide range of modern art movements from Cubism to Fauvism, and everything in between.
