2nd International Conference on

Vaccine Research & Immunology

December 02-03, 2019 | Paris, France

Day 1 December 02, 2019

09:30-10:00	**Registration**
10:00-10:15	**Opening Ceremony** **Introduction**
10:15-10:45	**Development of recombinant vaccines against Babesia microti infection by using apical membrane protein 1** **Obihiro, Japan** **Xuenan Xuan, Obihiro University of Agriculture, Japan**
	Group Photo
	Coffee Break @ Outside the meeting room 10:45-11:00
11:00 - 11:30	**Synergistic effect of Allicin with Colistin against clinical isolated Colistin-resistant Escherichia coli strains** **Muhammad Shafiq, Nanjing Agricultural University, China**
11:30 - 12:00	**Retail chicken carcasses as a reservoir of antimicrobial- resistant Escherichia coli** **Nahla O. Eltai, Humboldt University, Gemany**
12:00 - 12:30	**Indoleamine 2,3 Dioxygenase (IDO-1) Frequently Co-expressed with PD-L1/PD-1 in Carcinosarcomas of Müllerian Origin: Potentially Actionable Biomarkers Showing a Paradoxical Association with Microsatellite Instability** **Sean Hacking, USA**
	Lunch Break@ 12:30 - 13:30 Out side of the Hall
13:30 - 14:00	**A Novel Approach For Development, Standardization, And Safety Testing Of Enriched Alum-Precipitated Vaccine Against Hemorrhagic Septicemia In Different Breeds Of Cattle** **Muhammad Zahid Farooq, Huazhong Agricultural University, Pakistan**
14:00 - 14:30	**Whole genome Amplification of Torque teno virus from Nigeria HIV patients and blood donors** **Isaac Adeyemi Adeleye, University of Lagos, Nigeria**
14:30 - 15:00	**Factors affecting immunization coverage among children aged 12_35 months in Kassala locality, Sudan 2018**

	Huda Elhassan, Sudan
15:00 - 15:30	**Awareness of recommended vaccinations and vaccine preventable diseases among Lebanese adult population, 2019** **Ghida Hamze, Saida 1600 hospital ossayran, Lebanon**
Panel Discussion	
Networking & Refreshments Break 15:30 - 16:00	
16:00 - 16:30	**Inhalable MUC-1 peptide antigen loaded poly (lactide-co-glycolide) nanoparticles augmented cellular uptake in alveolar macrophages: In vitro evaluation** **Kiran Jyoti, Chandigarh College of Pharmacy, INDIA**
16:30 - 17:00	**Direct evidence of viral infection and mitochondrial alterations in the brain of fetuses at high risk for schizophrenia** **Segundo Mesa Castillo, Psychiatric Hospital of Havana, Cuba**
17:00 - 17:30	**High prevalence of multidrug resistant bacteria causing urinary tract infection among children in northern bangladesh** **Abdur Rafi, Rajshahi Medical College, Bangladesh**
17:30 - 18:00	**Isolation, identification and drug susceptibility profile of microorganisms from routine samples of patient** **Ikram ullah, Abbottabad university of science and technology havelian kpk, pakistan**
Closing Ceremony	
End of Day 1	
Day 2 December 03, 2019	
10:00-10:30	**Biocontrol of Vibrio cholerae using bacteriophages** **Maina Alice Nyambura, Technical University of Kenya**
10:30-11:00	**A review of antibiotic resistance in developing countries and suggested solutions to tackle it** **Xuan Zuo, Kaohsiung American School, Taiwan**
Coffee Break @ Outside the meeting room 11:00-11:15	
11:15-11:45	**High levels of proinflammatory cytokines IL-6, IL-8, TNF-α, IL-23 and INF-ɤ in tunisian patients with Autoimmune Hepatitis** **Marwa Chaouali, Military Hospital of Tunis, Tunisia**
11:45-12:15	**Insilico prediction of peptide based vaccine against Fowlpox virus (FPV)**

	Sarah T. Idris, Sudan University of Science and Technology, Sudan
12:15 - 12:45	**Molecular Dynamics Simulation of Human Antimicrobial Peptide LL-37 in Mammalian and Bacteria Model Membranes** **Mahshid Danesh, Institute for Advanced Studies in Basic Sciences (IASBS), Iran**
Lunch Break@ 12:45 - 13:30 Out side of the Hall	
13:30 - 14:00	**Antimicrobial resistant pattern among dirrahgenic Escherichia coli isolated from diarrheal patients in Iran** **Saeid Bouzari, Pasteur Institute of Iran, Iran**

Speaker Slots Available
