About Rome

Rome the “Eternal” City is so called because it is a place of great beauty, contrast and life. Rome is an ecletic city: the religious world centre of Catholic Church, the fabulous ruins of the centre of the Roman Empire, and modern, bustling Rome. All three seem incongruous, yet they live inside and beside each other with great ease. You will soon realise Rome was build to rule and dominate the world. Everything is on a massive scale, solid and “eternal”

Roman medicine was highly influenced by the Greek medical tradition. The incorporation of Greek medicine into Roman society allowed Rome to transform into a monumental city Like Greek physicians, Roman physicians relied on naturalistic observations rather than on spiritual rituals.
