About Paris

Paris is the capital city of France, and the largest city in France. The area is 105 sq km, and around 2.15 million people live there. If suburbs are counted, the population of the Paris area rises to 12 million people. The Seine River runs through the oldest part of Paris, and divides it into two parts, known as the Left Bank and the Right Bank.

Paris has many important cultural institutions: its Louvre museum is the most visited in the world; its Musée d'Orsay is noted for its collection of French Impressionist art, and its Pompidou-center Musée National d'Art Moderne has the largest collection of modern and contemporary art in Europe. The central area of the city along the Seine River is classified as a UNESCO Heritage Site and includes many notable monuments, including Notre Dame Cathedral, the Sainte-Chapelle, the former Universal Exposition Grand Palais, Petit Palais and Eiffel Tower, and the Basilica of Sacré-Cœur in Montmartre. In 2015, Paris received 22.2 million visitors, making it one of the world's top tourist destinations.
