

VASCULAR DEMENTIA 2018

FEBRUARY 22-23, 2018,
PARIS, FRANCE

10th International Conference on

Vascular Dementia

February 22-23,2018

Vascular Dementia 2018

THERE IS COLOSSAL MYSTERY WAITING TO BE UNLOCKED

&

Vascular Dementia 2018 WILL CHANGE IT TO GET A DYNAMIC INTRIGUING ASPECT OF THE BRAIN IN ACTION

&

BETTER UNDERSTAND

HOW WE THINK

HOW WE LEARN

HOW WE REMEMBER

AND THAT ACQUAINTANCE COULD BE - WILL BE - A CHANGEOVER"

Vascular Dementia 2018

Conference Highlights:

Vascular Dementia and Stroke

Causes and Prevention

Vascular Cognitive Impairment

Dementia: Risk Factors

Prevention of Dementia

Dementia Stages

Ageing and Dementia

Advances in Dementia Diagnosis

Dementia Care Management

Dementia Nursing

Treating Dementia

Neuropharmacology

Novel Therapeutics

Neurodegenerative disorders

Vascular Dementia 2018

Vascular Dementia2018

Vascular Dementia 2018

Vascular Dementia 2018 conference website is attracting 25000+ Neuro minds and thus in especial designed for the Neurologists, Neurophysiologists, Psychiatrists, Pharmacists, Research scientists, Neurology organizations and societies, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations & foundations, Professors and Students of all over the world under one roof to make the platform reach its confines. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Vascular Dementia 2018 welcomes you to attend the "10th International Conference on Vascular Dementia" which is scheduled during February 22-23, 2018 at Paris, France. Acordially invite all the participants who are interested in sharing their knowledge and research in the area of vascular dementia research and careVascular Dementia 2018 anticipate more than 500 participants around the globe with thought provoking Keynote lectures, Oral and Poster Presentations. The attending delegates include Editorial Board Members of related OMICS International Journals. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The intending participants can confirm their participation by registering for the conference along with your colleagues. The main theme of the conference is "Exploring the challenges concerning excellence in dementia research and care".

Salient Attributes

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How our Conferences differs from others ?

3000+ Conferences across the globe in 30+ countries all through the year

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

Participation by Stalwarts from various international societies

Internationally renowned speakers and scientist's representation

Career guidance for early career researchers and students

Interesting scientific deliberations and discussions

Perfect platform for Global Networking

Holy grail of Vascular Dementia2018

Accelerate the development and application of new technologies to produce dynamic pictures of the brain that show how individual brain cells and complex neural circuits interact at the speed of thought.

Promoting technologies will open new doors to explore how the brain encodes, stores, and retrieves vast quantities of information, and shed light on the complex links between brain function and behavior.

Emerging insights about the human brain have implications for all aspects of human endeavor. This subject matter can capture the imagination of academic thinkers and the general public as well.

Conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Neurology and Neurophysiology that is present abundantly and to scrutinize its incredible findings from all over the world.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration

Goals of the conference is to provide a transformative professional development experience through bringing together the world's scientific experts to catalyze and advance scientific knowledge about Neurology and Neurophysiology

Present the most recent research findings, and promote and enhance scientific collaborations around the world.

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses

to the world and overcome barriers that limit access to cure

Objectives

After participating in this meeting, attendees should be able to discuss emerging issues in Neurology and Neurophysiology

Discuss and apply recent research findings related to Neurology and Neurophysiology

Reflect on the place of critical distance in Neurology and Neurophysiology

Who should attend ?

Neurologists, Neurosurgeons, Neurophysiologists, Psychiatrists, Pharmacists, Research Scientists, Neurology Organizations & societies, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations & foundations, Professors and Students.

Past Conference Report

The 6th International conference on Vascular Dementia hosted by Conference Series LLC took place at Amsterdam, Netherlands during Feb 27-Mar 01, 2017.

Active participation and generous response were received from the Organizing Committee Members, Editorial Board Members of Conference Series LLC Journals as well as from eminent scientists, talented researchers and young student community.

Researchers and students who attended from different parts of the world have made the conference one of the most successful and productive events in 2017 from Conference Series LLC.

The conference was marked by the presence of renowned scientists, talented young researchers, students and business delegates driving the three days event into the path of success with thought-provoking keynote and plenary presentations highlighting the theme "Exploring the challenges concerning excellence in Dementia research and care"

Conference Series LLC has taken the privilege of felicitating Vascular Dementia 2017 Conference Organizing Committee, Editorial Board Members and Keynote Speakers who supported for the success of this event.

Conference Series LLC, on behalf of the conference sponsor, appreciates all the participants who put their efforts for this event and sincerely wishes them success in future endeavors.

The esteemed guests, Keynote speakers, well-known researchers, and delegates shared their innovative research and vast experience through their fabulous presentations at the podium of grand Vascular Dementia 2017 Conference.

We are glad to inform that all accepted abstracts for the conference have been indexed in Conference Series LLC "Journal of Alzheimer's Disease & Parkinsonism" as a special issue.

We are also obliged to various delegate experts, company representatives and other eminent personalities who supported the conference by facilitating active discussion forums.

We sincerely thank the Organizing Committee Members for their gracious presence, support and assistance towards the success of Vascular Dementia 2017.

About Paris

Paris has many important cultural institutions: its Louvre museum is the most visited in the world; its Musée d'Orsay is noted for its collection of French Impressionist art, and its Pompidou-center Musée National d'Art Moderne has the largest collection of modern and contemporary art in Europe. The central area of the city along the Seine River is classified as a UNESCO Heritage Site and includes many notable monuments, including Notre Dame Cathedral, the Sainte-Chapelle, the former Universal Exposition Grand Palais, Petit Palais and Eiffel Tower, and the Basilica of Sacré-Coeur in Montmartre. In 2015, Paris received 22.2 million visitors, making it one of the world's top tourist destinations.

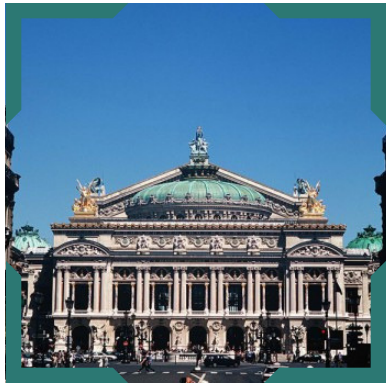

Guide for International Participants

Easter at Paris City, France:

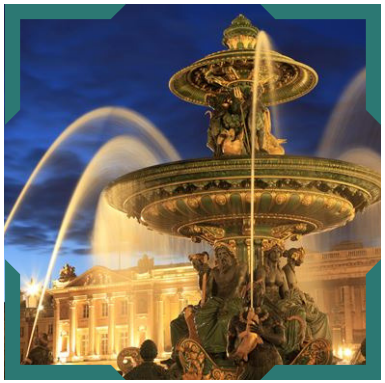

Paris is the capital city of France, and the largest city in France. The area is 105 sq km, and around 2.15 million people live there. If suburbs are counted, the population of the Paris area rises to 12 million people. The Seine River runs through the oldest part of Paris, and divides it into two parts, known as the Left Bank and the Right Bank
