

My warm welcome to you …

Dear 2019 Conference Attendees!

As your keynote speaker, it is my great pleasure to welcome you to the **11th International Conference on Vascular Dementia** scheduled February 15 – 16 in Amsterdam!

Together, we will spend a dynamic two days **DECODING DEMENTIA** as our conference theme. As students, you will validate your career commitment during this time of ground-breaking research. As researcher, you will cherish the fellowship among your peers to share engaging discourse. As experienced neurologists, you will value the provocative multi-disciplinary exchange to refresh your longstanding perspectives.

Then, there is Amsterdam – a city with filled with beautiful flowers, an endless maze of water canals, the art of van Gogh and delicious foods flavored by the spices of Indonesia. Breathe deeply and enjoy it all!

I wish you a most productive and educational conference experience!

Sincerely yours,

Amy L. Edmunds
