Invitation

Dear Collegues,

Conference Series llc LTD is delighted to welcome you to Prague | Czech Republic for the Prestigious 12th International Conference on Vascular Dementia.

The conference will focus on "Exploring the Challenges Concerning Excellence in Dementia Research and Care".

We are confident that you will enjoy the scientific program of this upcoming conference.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Vascular Dementia & Neurology Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Prague | Czech Republic.

Sincerely,

Vascular Dementia Conference 2020

Holy grail of Vascular Dementia 2020

Accelerate the development and application of new technologies to produce dynamic pictures of the brain that show how individual brain cells and complex neural circuits interact at the speed of thought.

Promoting technologies will open new doors to explore how the brain encodes, stores, and retrieves vast quantities of information, and shed light on the complex links between brain function and behavior.

Emerging insights about the human brain have implications for all aspects of human endeavor. This subject matter can capture the imagination of academic thinkers and the general public as well.

Conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Neurology and Neurophysiology that is present abundantly and to scrutinize its incredible findings from all over the world
