## About Bangkok
Bangkok is the capital and most populous city of Thailand. The city has a population of over 8 million, or 12.6 percent of the country's population. Bangkok welcomes more visitors than any other city in the world and it is a city of contrasts with action at every turn; marvel at the gleaming temples, catch a tuk tuk along the bustling Chinatown or take a long tail boat through floating markets. Food is another Bangkok highlight, from local dishes served at humble street stalls to haute cuisine at romantic rooftop restaurants. Luxury malls compete with a sea of boutiques and markets, where you can treat yourself without overspending. Extravagant five-star hotels and surprisingly cheap but good hotels welcome you with the same famed Thai hospitality. And no visit to Bangkok would be complete without a glimpse of its famous nightlife – from cabarets to exotic red-light districts, Bangkok never ceases to amaze. It should come as no surprise that Bangkok is jumping on the education hub bandwagon, as the capital city is known for doing just about everything on a grand scale. Bangkok has actively pursued branch campuses from top schools around the world, building an amazing array of international branch campuses that includes programs at different colleges from around the world. However, Bangkok has many of its own tourist attractions, has an extremely lively night life, and the shopping is arguably one of the best of Bangkok.
