Virology-2020

ABOUT ROME

Rome is one of the best cities to organize an **World Virology Congress**. The research work going on in the field is in a good range when compared to the other cities. Rome is the fastest growing city in Italy with excellent economic growth. Several of the College of Technology degree programs are offered at Rome engineering campuses.

Rome is a nationwide and major international center for higher education, containing numerous academies, colleges, and universities. Rome today is one of the most important tourist destinations of the world, due to the incalculable immensity of its archaeological and artistic treasures, as well as for the charm of its unique traditions, the beauty of its panoramic views, and the majesty of its magnificent "villas" (parks). Rome's architecture over the centuries has greatly developed, especially from the Classical and Imperial Roman styles to modern Fascist architecture.

Rome is unique in that science as a resource is available to industrial companies in a highly compact manner and offers companies excellent cooperation opportunities. Rome is Italy's top tourist city destination. It is a great city to visit, mixing venues of historical interest with exciting recreation and entertainment opportunities. Alongside its major historical sites, Rome offers a diverse range of top attractions – world-famous buildings, museums, city parks, cabaret theatres, festivals and of course plenty of shopping opportunities. Physics Congress-2020 at Rome will certainly give a wonderful experience to attendees to explore the beautiful city with gaining knowledge.
