About Canada

Vancouver Canada

DECEMBER 05-06 2018

Virology and Viral Diseases 2018 is going to be held in Vancouver, Vancouver is also one of the most ethnically and linguistically diverse cities in Canada with 52 percent of the population speaking a first language other than English. Vancouver has hosted many international conferences and events, including the 2010 Winter Olympics and 2010 Winter Paralympics. Vancouver is Canada's 3rd largest city with an area population of just under 3 million. It has the mildest climate (along with Victoria) in Canada. Unlike most Canadian Cities, Vancouver is divided into several self-governing municipalities. (Vancouver city itself only has a population of about 565,000). The generic term for Vancouver and its environs is the "Lower Mainland" or "Greater Vancouver". Vancouver is North America's second largest Port (in tonnage & physical size - after New York) and one of the world's major cruise ship ports. I believe it is the 4th largest cruise ship terminus in the world. Vancouver has the highest proportion (per capita) of Asians of any North American city. This makes for a great selection of Oriental restaurants. It has one of the largest and oldest Chinatowns in North America. Related to the above, Vancouverites dine out more than in any other North American city. Vancouver is the second or third largest film production centre in North America. Vancouver Facts and Statistics:

Some Famous Vancouverites: Jason Priestly, Yvonne de Carlo, James Doohan (Scotty on Star Trek), John Ireland. We will also claim Raymond Burr, Pamela Anderson, Michael Buble & Michael J Fox. Raymond Burr was born in a Vancouver suburb, Michael Fox grew up here and Pamela Anderson isfrom Vancouver Island. (not Victoria Island, as Americans seem to call it) Vancouver is probably the only place in the world where it is possible to ski, play golf, and go sailing all in the same day. It also had the first rock'n'roll radio station in Canada (CKWX) in the early 50's and the first rock FM station (CKLG) in 1967.
