Brochure

12th World Congress on

Virology and Infectious Diseases

March
13-14, 2019

Singapore

Theme:
A New Journey Inquest of Virology and Infectious diseases

http://virology.conferenceseries.com/asiapacific/

Invitation

Conference Series llc LTD welcomes you to attend the 12th World Congress on Virology and Infectious Diseases, which is going to be held in Singapore during March 13-14, 2019.

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Nutrition and Health Care.

Virology Asia 2019 anticipates more than 200 participants around the globe with thought provoking Keynote lectures, Oral Presentations and Poster Presentations. The attending delegates include Editorial Board Members of related International Journals.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

The main theme of the conference is "A New Journey Inquest of Virology and Infectious diseases".

Regards,
Virology Asia 2019
Operating Committee

Tentative Agenda

Day-01 13 March 2019	
Time	Session
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Types of Infectious Diseases /Viruses and Tumours
13:00-13:45	Lunch Break**
13:45-16:00	Deadly viral diseases/Neuro virology/Molecular virology
16:00-16:15	Viral immunology/Agriculture and Plant Virology
16:15-18:00	Veterinary Virology/Oncolytic Virology
Day Concludes	

Day- 02 14 March 2019	
Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Microbiology/Fungal Infections
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Fungal Therapeutic Techniques/Bacterial Infections
13:00-13:45	Lunch Break**
13:45-16:00	Bacterial Therapeutic Techniques/Parasitic infections
16:00-16:15	Research on virology and Infectious diseases
16:15-18:00	Poster Presentations
Award Ceremony	
Conference Concludes	

Summary of Virology Asia 2019

The main focus of 12th world congress of Virology and Infectious Diseases is on the recent advances across the spectrum of Virology and Infectious Diseases research from basic sciences to public health. Conference highlights will be General virology; Viruses and Tumours; Viral epidemiology; Deadly viral diseases; Clinical and Neuro virology; Molecular virology; Paediatric Virology; Viral immunology; Retroviology; Agriculture and Plant Virology; Veterinary Virology; Current Research in Virology; Pharmaceutical mycology; Mycotoxins and Mushrooms; Mycology and Ecology; Medical and Clinical Mycology; Environmental and Applied Mycology; Veterinary Mycology; Mycotoxicoses and mycoses; Mycoscience.

Importance & Scope:

This is the best opportunity to reach the largest cluster of participants from all over the world and it's a best platform to develop new partnership and collaborations with pharmaceutical industries and healthcare industries. Members from around the world focused on learning about Virology and Infectious Diseases and recent innovative researches going on in medical and clinical mycology, Retroviology, Deadly viral diseases and their precautions , Environment and Applied mycology. This is the only place where new comers in the field of research can grab bulk knowledge from world-renowned speakers and receive name recognition in 2-day event. World-renowned speakers, doctors, scientists, recent innovations, developments and newest updates in the field of Virology and Infectious Diseases are hallmarks of this conference.

Why Singapore???

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. The country's territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulau Ujong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation. Singapore's progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings,

values and traditions that have survived in the face of profound social and geographical change.

Conference Highlights

- Types of Infectious diseases
- Dermatology
- Viruses and Tumours
- Deadly viral diseases
- Neuro virology
- Molecular virology
- Viral immunology
- Agriculture and Plant Virology
- Veterinary Virology
- Oncolytic Virology
- Microbiology
- Fungal Infections
- Fungal Therapeutic Techniques
- Bacteriological Infections
- Bacterial Therapeutic Techniques
- Parasitic infections
- Therapeutic medicines for infectious diseases
- Current research in virology and Infectious diseases

Major Virology Research Associations and Society around Globe

- American Society for Virology
- Pan-American Society for Clinical Virology
- European Society for Virology
- European Society for Clinical Virology
- Mycological Society of Toronto
- The British Mycological Society
- International Retroviology Association
- North American Mycological Association
- New York Mycological Society
- Puget sound Mycological Society

Target Audience

- Scientists
- Research Scholars
- Professors
- Lecturers
- Dean and Directors
- Graduates and Undergraduates
- Pharmaceutical Industries
- Healthcare Sectors
- Directors of Association and Society
- Experts and Delegates
- Doctors
- Research Institutes
- Industrial Business Entrepreneurs

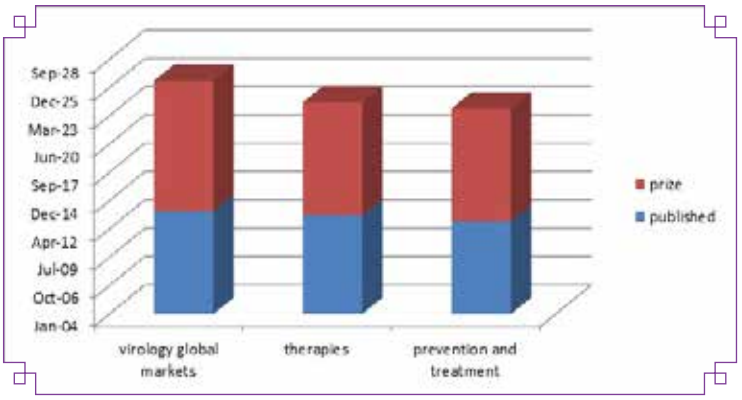

Universities Associated with Virology and Infectious Diseases Research

- University of Tokyo
- Osaka University
- Kyoto University
- Kobe University
- University of Bristol
- Imperial College London
- University Malaysia Sarawak
- University of Rochester
- Case Western Reserve University

Virology:

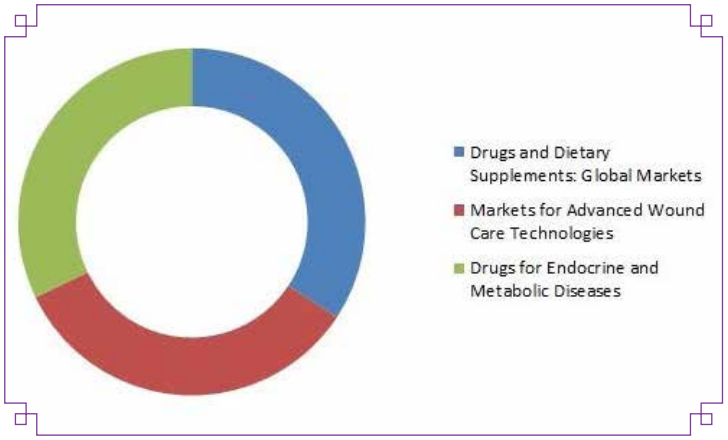

In Virology Market Asia Pacific is projected to have the fastest growth, owing to a rapidly developing medical infrastructure, increasing spending on

healthcare and growing medical tourism in developing nations such as China and India in this region. The generic competition in the virology market will be at a high pace 2017 onward. In 2016 the global cancer immunotherapies market had extended to $73.0 billion. In 2021 it is expected that this market will progress to nearly about $96.5 billion over the period of 5 years with a compound annual growth rate (CAGR) of 5.7% from 2016 to 2021.

Mycology:

The Mycology market has been segmented on the basis of geographic regions into North America, Europe, Asia Pacific. The quantitative and qualitative analysis is provided for the global Mycology market considering competitive landscape, development trends, and key critical success factors (CSFs) prevailing in the Mycology industry. In 2016 the global market for antifungal drugs had extended to $13.1 billion. In 2021 it is expected that this market should reach $16.1 billion growing at a compound annual growth rate (CAGR) of 4.2% from 2016 to 2021.

About Conference

The field of Virology and Infectious Diseases is growing rapidly and its development is making tremendous impacts in Healthcare. The importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

Virology Asia 2019

- Opportunity to attend the presentations delivered by eminent scientists from all over the world
- Selected contributions will be published in following Conference Series llc LTD Journals
    - Virology and Infectious Diseases
    - Journal of Antivirals and Antiretroviral
- Participation in sessions on specific topics on which the conference is expected to achieve progress
- Global networking: In transferring and exchanging Ideas
- Share your excitement in promoting your skills in the field of designing
- Conference brings together Scientific Researchers, Business Entrepreneurs and Industry Developers

About Us

International Journals

- 900 Open Access Journals
- 21 Day rapid review process
- 30000 Editorial team, 35000 Reviewers team
- 3.5 Million readers and high visibility
- More than 100000 facebook fans
- Publication immediately after acceptance
- Quality and quick editorial, review processing

Key features

- User friendly/feasible website translation of your paper to 50 world's leading languages
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits

Conference Series llc LTD Conferences

- 1000 Conferences all over the World every year
- Well organized scientific program
- Renowned speakers and scientists across the globe
- Poster presentations and world class exhibits
- Panel discussions and interactive sessions
- B2B meetings
- Perfect platform for Global Networking

Key features

- Presentation by renowned speakers from all over the world
- Poster presentations and world class exhibits
- Interactive Sessions
- Platform for global networking
- Connecting scientific community

About Singapore

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. The country's territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulau Ujong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation. Singapore's progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change. Singapore is both an island and a country, but perhaps its best description is that of city-state. Like the great city-states of the past, it offers civilization and order in the highest degree. Its combination of Western-style development and Eastern-style calm seems to present the best of both hemispheres: It's a modern metropolis where you feel safe walking the streets and it's an Asian business center that's a model of efficiency. Singapore is also a multicultural city, and close to one-quarter of its population are expatriates or foreign workers from all over the world.
