WELCOME ADDRESS

Dear Attendees,

The Vision Science 2025 Organizing Committee is absolutely delighted to welcome you to the **35th International Congress on Vision Science and Eye** which will be held in **Barcelona, Spain** on **April 29-30, 2025,** where we will be shining a spotlight on *"Vision Science Breakthroughs: Insights and Innovations"*.

We are looking forward to providing you with a superb environment in which to present, discuss and advance your Vision Science research. The world class scientific programme will consolidate existing knowledge while at the same time increase your awareness of leading edge and forward looking advances in the field.

Barcelona, Spain, a dazzling Mediterranean metropolis, is a city that seamlessly blends historical splendor with modern dynamism. The Barcelona Cathedral, a stunning example of Gothic architecture, stands at the heart of the quarter, its spires piercing the sky. The Gothic Quarter is also home to remnants of the ancient Roman walls, adding another layer of historical depth. Walking through this area feels like stepping back in time, with every corner revealing a new piece of the city's rich heritage. Art and culture are woven into the very fabric of Barcelona.

We look forward to seeing/welcoming you in 2025 for an experience of a lifetime.

With Regards
Vision Science 2025

ABOUT US

Goals & Objectives

- The Vision Science 2025 aims to bring together leading world's scientific experts, academic professionals, scientists, specialists, researchers, scholars, business delegates and students to exchange and share their experiences and research results on all aspects of Vision Science and Eye.
- It also provides an interdisciplinary platform for policy makers, community leaders, business activists, scientists and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Vision Science.
- We aim to bring the research and innovations happening across the parts of the globe to facilitate interaction, knowledge sharing and exchange. We also aim to inspire university professors, students, researchers, clinicians and entrepreneurs.

About Conference

35th International Congress on Vision Science and Eye is among the World's leading Scientific Conference. The two day event on Vision Science will host Major scientific and technical sessions along with the sub-sessions on cutting edge research and latest research innovations in the field of Vision Science & its related issues across the globe. To foster the best learning environment we have designed some of the sessions this year for Vision Science conference which will comprises of 18 major sessions designed to offer comprehensive sessions that address current issues in various fields of Vision Science.

Besides the attendees can find prestigious plenary and invited lectures, various shorter talks and poster sessions which will give the opportunity to most participants to present their work at the Congress. This congress on Vision Science provides an opportunity to meet experts, professionals, academicians and researchers from all over the world. Execute new methods or revise existing methods based on best presented facts as presented at **Vision Science 2025**.

ABOUT BARCELONA

Barcelona, Spain, a dazzling Mediterranean metropolis, is a city that seamlessly blends historical splendor with modern dynamism. Founded over 2,000 years ago by the Romans, Barcelona has evolved through the ages, absorbing influences from the Visigoths, Moors, and Aragonese, each leaving a unique mark on its cultural and architectural landscape. Today, the city stands as a testament to this rich tapestry of history, offering an array of experiences that cater to all tastes. One of the most iconic aspects of Barcelona is its extraordinary architecture, much of which can be attributed to the visionary architect Antoni Gaudí. His magnum opus, the Sagrada Família, dominates the skyline with its towering spires and intricate facades, blending Gothic and Art Nouveau forms. Despite being under construction for more than a century, it remains one of the most visited monuments in the world, drawing millions of tourists annually. Gaudí's influence is also evident in other parts of the city, particularly in Park Güell. This public park is a whimsical wonderland of colorful mosaics, undulating benches, and organic shapes, all set against the backdrop of stunning views of Barcelona. Similarly, Casa Batlló and Casa Milà (La Pedrera) showcase Gaudí's distinctive style with their flowing lines, surrealist elements, and inventive use of materials.
