10th World Convention on

Recycling and Waste Management

July 20-21, 2020 | Osaka, Japan

Theme: "Recycle for a Greener Planet"

https://wastemanagement.conferenceseries.com/

Invitation...

Dear Colleagues,

10th World Convention on Recycling and Waste Management (**Waste Recycling Congress 2020**) extends its welcome to you during **July 20-21, 2020** at **Osaka, Japan**. with a theme ''**Recycle for a Greener Planet**''. Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **Waste Recycling Congress 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Recycling and Waste Mangement.

Waste Recycling Congress 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.

- Selected contributions will be published in following reputed high impact factor Journals.
  - ☞ Journal of Environmental & Analytical Toxicology
  - ☞ Advances in Recycling & Waste Management
  - ☞ Journal of Bioremediation & Biodegradation

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Cardiology and Healthcare are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Recycling – Reduce, Reuse and Recovery
- Waste Management Techniques
- Environmental Chemistry
- Hazardous Waste Management
- E-Waste Recycling
- Marine Plastic Pollution
- Waste Water Treatments
- Paper Recycling
- Plastic Recycling
- Industrial Waste Recycling
- External Recycling & Internal Recycling
- Chemical Waste Recovery
- Biomass Valorization
- Biofuels
- Bio- Electrochemical Treatment Systems
- Renewable Resources
- Bioremediation
- Energy from Organic Waste
- Environmental impact Assessment
- Landfills
- Microbial Fuel Cell Technology
- Waste Treatment Technologies

Program at Glance

July 20, 2020	
Time	Session
08:30 - 09:30	Registrations
09:30 -11:30	Keynote Forums
	Group Photo
11:30 -11:45	Network & Refreshment Break
11:45 -13:00	Recycling – Reduce, Reuse and Recovery | Waste Management Techniques | Environmental Chemistry
13:00 -13:45	Lunch Break
13:45 -16:00	Hazardous Waste Management | E-Waste Recycling | Marine Plastic Pollution | Waste Water Treatments
16:00 -16:15	Network & Refreshment Break
16:15 -18:00	Paper Recycling | Plastic Recycling | Industrial Waste Recycling | External Recycling & Internal Recycling
	Day Concludes

July 21, 2020	
Time	Session
08:30 - 09:30	Registrations
09:30 -10:30	Keynote Forums
10:30 -11:30	Chemical Waste Recovery | Biomass Valorization | Biofuels | Bio- Electrochemical Treatment Systems
11:30 -11:45	Network & Refreshment Break
11:45-13:00	Renewable Resources | Bioremediation | Energy from Organic Waste | Environmental impact Assessment
13:00 -13:45	Lunch Break
13:45 -16:00	Landfills | Microbial Fuel Cell Technology | Waste Treatment Technologies
16:00 -16: 15	Network & Refreshment Break
16:15 -18:00	Poster Presentations
	Day Concludes
	Award Ceremony
	Conferece Concludes

Osaka, Japan

Osaka Prefecture and the largest component of the Keihanshin Metropolitan Area, the second largest metropolitan area in Japan and among the largest in the world with over 19 million inhabitants. Situated at the starting of the Yodo River on Osaka Bay, Osaka is the second largest city in Japan, serving as a major economic hub for the country. Osaka has a large number of wholesalers and retail shops, the stores along the arcade include commodities, clothing, and catering outlets. Osaka is known for its food, in Japan and abroad. Osaka is known for its fine sake, which is made with fresh water from the prefecture's mountains. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. It is the backdrop for modern movies and pop music that enjoy worldwide recognition.

Osaka is a cosmopolitan city near the ancient capital, Kyoto, best known for its dynamic food and drinking culture, and famously outgoing people. Despite the fact that so many travelers inadvertently overlook Osaka, it is a perennial favorite among repeat visitors and Japan connoisseurs.
