5th World Congress on

Cardiology & Cardiovascular Therapeutics

August 12-13, 2019 | Tokyo, Japan

Theme: Progressing into the Future of Heart Science

200+ Participation

12+ Interactive Sessions

6+ Keynote Lectures

50+ Plenary Lectures

3+ Workshops

5+ Exhibitors

B2B Meetings

Welcome Message

Dear Colleagues,

Conference Series LLC LTD is enchanted to welcome you to the **5th World Congress on Cardiology & Cardiovascular Therapeutics** which is to be held in **Tokyo, Japan** amid of **August 12-13, 2019**. **WCCCT 2019** will be an inventive and fortifying International gathering mirroring the course of Paediatric Cardiology. This meeting gives a phenomenal chance to talk about the most recent improvements inside the field.

Paediatric Cardiology 2019 featuring the subject "**Progressing into the Future of Heart Science**" gives a superb chance to share sees, trade information and build up research coordinated efforts and systems administration. Paediatric Cardiology 2019 will concentrate on the most recent and energizing advancements in every aspect of research offering a novel open door for Neonatologists, Paediatricians and Cardiologist over the globe to meet, organize, and see new logical developments.

Conference Highlights:

- Cardiology
- Clinical & Experimental Cardiology
- Molecular and Cellular Cardiology
- Pediatric and Neonatal Cardiology
- Geriatric Cardiology
- Cardiology: Women's health
- Cardiac Nursing
- Cardiovascular Disease
- Cardiothoracic Surgery
- Heart Failure
- Interventional Cardiology
- Invasive cardiology
- Hypertension
- Cardiovascular Pharmacology and Toxicology
- Cardiovascular drugs
- Cardiovascular Engineering
- Cardiac devices & Imaging Techniques
- Cardiac Regeneration strategies
- Research & Advances in Cardiology
- Cardiology Case Reports

Program at Glance

Day 01 August 12, 2019

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Cardiology | Congenital Heart Disease | Cardiothoracic Surgery |Cardiovascular Disease
13:00-13:45	Lunch Break**
13:45-16:00	Heart Failure | Interventional Cardiology | Invasive cardiology |Myocardial and Pericardial Disease
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Interventional Cardiology| Cardiac Stroke| Cardiology: Women's health |Cardiac Nursing
Day Concludes	

Day 02 August 13, 2019

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Cardio-Oncology | Heart and Obesity | Clinical Cardiology
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Hypertension ||Cardiac devices & Imaging Techniques |Cardiac Regeneration strategies |Rheumatic coronary illness
13:00-13:45	Lunch Break**
13:45-16:00	Cardiovascular Pharmacology and Toxicology |Cardiovascular drugs |Vascular Heart Disease |
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Interventional Cardiology |Invasive cardiology | Arrhythmias & Heart Regeneration |Research & Advances in Cardiology |Cardiology Case Reports
Award Ceremony	
Conferece Concludes	

City Attractions

Venue

Tokyo officially Tokyo Metropolis, is the capital of Japan and one of its 47 prefectures. The Greater Tokyo Area is the most populous metropolitan area in the world. It is the seat of the Emperor of Japan and the Japanese government. Tokyo is in the Kantō region on the south-eastern side of the main island Honshu and includes the Izu Islands and Ogasawara Islands. Formerly known as Edo, it has been the de facto seat of government since 1603 when Shogun Tokugawa Ieyasu made the city his headquarters. It officially became the capital after Emperor Meiji moved his seat to the city from the old capital of Kyoto in 1868; at that time Edo was renamed Tokyo. Tokyo Metropolis was formed in 1943 from the merger of the former Tokyo Prefecture and the city of Tokyo. Tokyo is often referred to as a city, but is officially known and governed as a "metropolitan prefecture", which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The Tokyo metropolitan government administers the 23 Special Wards of Tokyo (each governed as an individual city), which cover the area that was the City of Tokyo before it merged and became the metropolitan prefecture in 1943. The metropolitan government also administers 39 municipalities in the western part of the prefecture and the two outlying island chains. The population of the special wards is over 9 million people, with the total population of the prefecture exceeding 13 million. The prefecture is part of the world's most populous metropolitan area with upwards of 37.8 million people and the world's largest urban agglomeration economy. The city hosts 51 of the Fortune Global 500 companies, the highest number of any city in the world. Television, NHK and the Tokyo Broadcasting System.
