About Italy

The central-western portion of the Italian Peninsula, Rome is a special comune of Italy. It is the most famous vacation spot in Italy. This city is proud of its ancient glorious heritage. It is one of the most famous tourist destinations of the world, because of its archaeological and artistic treasures, as well as for the charm of its unique traditions. Top tourist attractions are Colosseum, St. Peter's Basilica, Pantheon, Vatican Museums, Trevi Fountain, Roman Forum, Castel Sant'Angelo, Piazza Navona, Campo de' Fiori and many more.

December is one of the best times of the year to visit Rome, Italy when the city experiences cold and damp weather. At this time of year, the average temperature starts off at 10°C. The city experiences an average of six hours of sunshine each day. With a cool average sea temperature of 16°C toward the coast, it's unlikely you'll be spending days by the beach during your visit.

It is a city of collection of art, sculpture, fountains, mosaics, frescos, and paintings. During ancient Rome it was a major artistic centre, with forms of important Roman art such as architecture, sculpture, painting, and mosaic work, Metal-work, coin die and gem engraving, ivory carvings, pottery, figurine glass and book illustrations are considered to be 'minor' forms of Roman artwork. Later it became a major centre of Renaissance art.
