INVITATION

WOMEN HEALTH SUMMIT 2026

Dear Attendees,

WOMEN HEALTH SUMMIT 2026 cordially invites you to attend the 20th International Conference on Gynecology, Obstetrics and Women's Health, scheduled to take place on November 19–20, 2026, in Paris, France under the theme "Empowering Women's Health through Innovations in Gynecology and Obstetrics." This prestigious international conference is expected to bring together gynecologists, obstetricians, researchers, clinicians, academicians, healthcare professionals, medical practitioners, and industry experts from around the world.

The scientific program will feature keynote lectures by distinguished speakers, oral presentations by leading experts, poster sessions by young researchers and students, and interactive discussions covering recent advancements in gynecology, obstetrics, reproductive medicine, maternal healthcare, fertility research, and women's wellness. The conference will highlight innovative technologies, clinical practices, and emerging research aimed at improving women's healthcare outcomes globally.

WOMEN HEALTH SUMMIT 2026 aims to provide a valuable platform for sharing research insights, discussing current challenges, and encouraging scientific collaboration among healthcare professionals, researchers, academic institutions, and industry leaders. The conference will also offer excellent opportunities for international networking and professional exchange with experts in the field.

We look forward to welcoming you to Paris for an enriching scientific and professional experience.

Warm regards,
Christian Lauren | Program Manager
Organizing Committee | WOMEN HEALTH SUMMIT 2026

ABOUT VENUE

Paris is widely regarded as the most romantic city in the world and is home to many world-famous landmarks often featured in travel magazines, films, and works of art. As the capital of France, Paris has a population of over two million and is one of the most-visited cities in Europe. It earned the nickname “City of Light” for two key reasons. First, in the 1860s, Paris became one of the first European cities to use gas street lamps, quite literally lighting up the city. Secondly, during the 18th century, Paris played a central role in the Age of Enlightenment, making it a beacon of intellectual and cultural development. Fashion has long been a key element of Parisian culture, with roots tracing back to the 1670s and the establishment of the Paris fashion press. Many credit France’s iconic style to King Louis XIV, also known as the Sun King. While Paris is often seen as the heart of French culture—renowned for its fashion, cuisine, art, and architecture—life outside the capital is distinctly different and varies by region. Interestingly, France doesn’t just have culture—the word “culture” itself is French.
