About Us

International Journals

- 900 Open Access Journals
- 21 Day rapid review process
- 30000 Editorial team, 35000 Reviewers team
- 3.5 Million readers and high visibility
- More than 100000 facebook fans
- Publication immediately after acceptance
- Quality and quick editorial, review processing

Key features

- User friendly/feasible website translation of your paper to 50 world's leading languages
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits

Conference Series llc LTD Conferences

- 1000 Conferences all over the World every year
- Well organized scientific program
- Renowned speakers and scientists across the globe
- Poster presentations and world class exhibits
- Panel discussions and interactive sessions
- B2B meetings
- Perfect platform for Global Networking

Key features

- Presentation by renowned speakers from all over the world
- Poster presentations and world class exhibits
- Interactive Sessions
- Platform for global networking
- Connecting scientific community

About Sydney

Australia, officially called the Commonwealth of Australia, is a country and sovereign state in the southern hemisphere, located on its own continent between the Pacific Ocean and the Indian Ocean. Its capital city is Canberra, and its largest city is Sydney.

Australia is the sixth biggest country in the world by land area, and is part of the Oceanic and Australasian regions. Australia, New Zealand, New Guinea and other islands on the Australian tectonic plate are together called Australasia, which is one of the world's great ecozones. When other Pacific islands are included with Australasia, it is called Oceania.

23–24 million people live in Australia, and about 80% of them live on the east coast. The country is divided up into six states, and more than half of Australia's population lives in and around the cities of Sydney, Melbourne, Brisbane, Perth and Adelaide.

Australia is known for its mining, its production of wool, and as the world's largest producer of bauxite. Its emblem is a flower called the Golden Wattle.
