World Biotechnology 2018

Invitation...

WORLD BIOTECHNOLOGY 2018
DEC 03-04, 2018 | SAO PAULO, BRAZIL

Dear Attendees.....

We are glad to announce the **3rd World Biotechnology Congress** to be held in **Sao Paulo, Brazil** from **December 03-04, 2018** organized by Conference Series LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. This conference is a unique international platform that's a confluence of all Biotechnology Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Biotechnology and other related topics, Agricultural Biotechnology, Food safety processing and Technology, Genetic Engineering and Tissue Engineering, Industrial Biotechnology, Plant Biotechnology, CRISPR/Cas9 Techniques, Nano biotechnology, Bio fuels, Bio economy, Animal Biotechnology, Molecular Biology, Biotechnology Industry in the Current World, Business Development, Recycled Fuels, Applied Biotechnology, Biomedical Engineering nanotubes and many more highlights will be available to discuss with you the latest issues and trends in Overcoming Milestones towards Biotechnology **"Acquire Innovative Strategies in Biotechnology with Evolving Evidence and New Technologies".** As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the Biotechnology Congress to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **Sao Paulo, Brazil**

About Conference...

WORLD BIOTECHNOLOGY 2018
DEC 03-04, 2018 | SAO PAULO, BRAZIL

Purpose:

3rd World Biotechnology Congress is an arena for interdisciplinary exchange among professionals in the fields of Biotechnology and its related aspects.

Goals:

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference are to provide a transformative professional development experience through. Bringing together the world's scientific experts to showcase the advances in scientific knowledge about Biotechnology and its related aspects to present the most recent research findings, and promote and enhance scientific collaborations around the world. Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services

Objectives:

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Biotechnology
- Discuss and apply recent research findings related to Biotechnology
- Reflect on the place of critical distance in Biotechnology

World Biotechnology 2018 salient features:

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

Who should attend:

3rd World Biotechnology Congress is exclusively designed for Researchers, Academicians, Industrialists, Early Career Scholars, students along with Industries and others engaged in endeavors related to Biotechnology research and business.

About Hosting Organization:

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided

Conference Highlights

- Agricultural Biotechnology
- Plant Biotechnology
- Environment Biotechnology
- Food Processing safety and Technology
- Animal Biotechnology
- Pharmaceutical Biotechnology
- Biomedical Engineering
- Cell science and Tissue science engineering
- Genetic Engineering
- Molecular Biology
- CRISPR Technologies
- Industrial Biotechnology
- Bioinformatics
- Biofuels
- Biomass and Bioenergy
- Recycled Fuels
- Nano Biotechnology
- Biosafety and Bioethics
- Biosensors and Bioelectronics
- Biotechnology Industries in the Market

About Sao Paulo...

Sao Paulo is both the name of a state, as well as, a city. Those born in the city of Sao Paulo are called “Paulistanos.” Those born in the state of Sao Paulo but, not in its capital, are called “Paulistas.” To illustrate, there are three “Paulistanos” soccer teams in the first division of the national league: Portuguesa, Sao Paulo and Corinthians, which is the only billionaire soccer club in Brazil Accordingly, there are two “Paulistas” soccer teams in Brazil’s Serie A: Ponte Preta and Santos FC.

Sao Paulo state has 645 municipalities and a population of approximately 40 million inhabitants. According to IBGE, Brazil’s main government research institute, the population in the city of Sao Paulo is about 11 million inhabitants. If we take into account the metropolitan area, which includes 38 smaller cities around the capital, the population is almost 19,000,000 inhabitants. In Brazil, 81.3% of the population lives in urban areas even though the amazon rainforest covers up to 57% of the total area of Southern hemisphere’s largest country.

Sao Paulo metropolitan region totals 847 thousand students enrolled in institutes of higher education (mainly colleges and universities), 90% are enrolled in private institutions and 10% in public ones. According to Sindata, which provides data about Sao Paulo education ecosystem, there are 202 private institutions of higher education and 20 public one in Sao Paulo metropolitan area, representing a growth of 47% in the total of institutions of higher education since 2000.

World Biotechnology Congress 2018 welcomes you to the exciting city of Sao Paulo!!
