World Cardiology 2017

Market Analysis of World Cardiology 2017

At present scenario, cardiovascular disease is one of the leading causes of death and disability in the world. As per the current statistics, more than 17.3 million people die from cardiovascular disease every year. Coronary Heart Disease represents one of the main causes of death in Italy. This accounts for 13% of general mortality and 32% of circulatory system deaths in the country. Therefore there is a need of determining the respective contributions of prevention and therapies to reduce Coronary Heart Disease mortality rates are now days becoming increasingly important for planning future strategies.

Coronary diseases that accounts for 13% of all deaths in Italy cause substantial loss of human life, disability, and long-term dependence on health services and medications. Coronary disease is an important factor causing stroke occurrence during older age. During the present scenario there has been rapid growth in costly medical technology and pharmaceutical treatments for Heart Diseases, as well as substantial public health efforts to reduce the levels of major cardiovascular risk factors.

The high risk of heart disease in the region can also be attributed to an inadequate and the high consumption of fat and carbohydrates.

Some of the other factors causing Cardiovascular Disease are

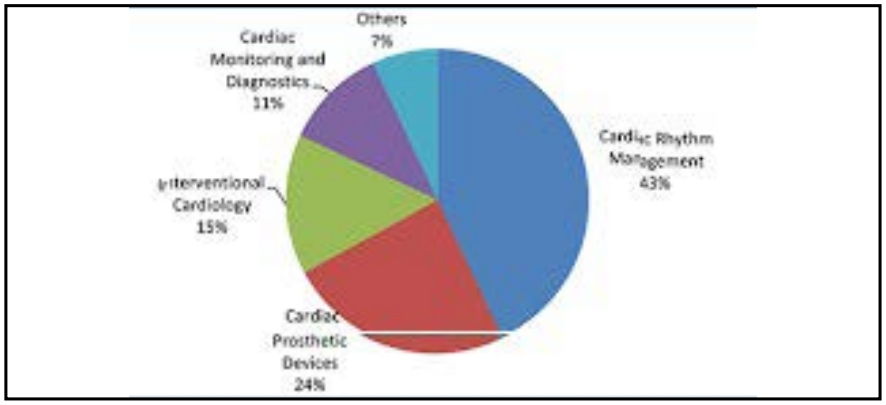

- Being physically inactive
- Being overweight or obese
- Ancestors of heart disease
- Ethnical background
- Sex – men are more likely to develop cardiovascular disease at an earlier age than women.
- Age – the older you are, the more likely you are to develop cardiovascular disease (CVD).

Continuation...

The global cardiac medical devices market is estimated to grow to $65.6 billion by 2015. As per the report forecast for Global cardiovascular devices market by region United States accounts for the highest share of the cardiac devices market at 42.8% followed by the Europe that valued 22.3% of the total market share. China accounts for 6.3% of the market share followed by Russia, Brazil and India. Cardiac rhythm management devices claim the largest share globally of the overall cardiac devices market accounts for nearly 5%. As per the report the 2017 market value and CAGR of Cardiac Rhythm Management Devices (CRM) is estimated to be $22.3 billion at the rate of 9.9%. The second is the Interventional Cardiac Devices (ICD) estimated to grow 15.7 billion at the rate of 10.6% by 2017. Global ECG equipment market value was estimated at over USD 4.0 billion in 2014 and is expected to grow at a CAGR of over 5.9% over the next seven years. Key growth contributing factors of the ECG device market include high incidence rate of heart diseases requiring the need for continuous monitoring, funding to hospitals to improve patient care, and industry players' concentrate on innovating error-free and improved workflow capabilities devices.

Some of the important Companies Mentioned in the Global Cardiovascular Devices are MAQUET GmbH & Co. KG, Sorin Group, Medtronic Inc., EndoPhotonix Inc., Terumo Corporation, SEMMT Inc., C. R. Bard Inc., Cardima Inc., Edwards Lifesciences, CyberHeart Incorporated, MedWaves Incorporated, Kardium Inc., St. Jude Medical and others.

Global Cardiac Medical Devices Market Analysis

Invitation

Dear Attendees,

We are glad to announce the **22nd World Cardiology Conference** to be held in **Rome, Italy** from **December 11-12, 2017** organized by **Conference Series LLC, USA** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

World Cardiology Conference 2017 is designed on the theme: **"Accelerating Innovations & fostering advances in Cardio Research"** that focuses to share novel approaches related to Cardiology field and exploring the challenges concerning excellence in Cardio research and advancements. The motive of the event is to generate awareness that will keep medical professionals abreast of the problems affecting the prevention, diagnosis and treatment of cardiovascular disease. Therefore activities during this conference over the last few years and coming years will leave a lasting legacy in the field of cardiology for the world.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the World Cardiology to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Rome this December.

Sincerely,
World Cardiology 2017
Organizing Committee

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

World Cardiology 2017 Conference website is attracting **25000+** cardiologists, cardiovascular experts online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

World Cardiology 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

22nd World Cardiology Conference is an arena for interdisciplinary exchange among professionals in the field of cardiology, cardiovascular researchers, public health professionals, scientists, academic scientists, industry researchers and scholars.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Heart diseases present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in the field of Cardiology
- Discuss and apply recent research findings related to Cardiovascular diseases
- Reflect clinical uses of various techniques in the diagnosis, prognosis, and management of common cardiovascular diseases

About Conference

Who should attend

22nd World Cardiology Congress is exclusively designed to bring together worldwide distinguished academics in the field of cardiology, cardiovascular researchers, public health professionals, professors, academic scientists, industry researchers, scholars to exchange their ideas about research state and technologies.The aim of this conference is stimulate new ideas for treatment and analyse the current market for the future direction of cardiovascular drugs, devices, and diagnostics, with an emphasis on newer products that will be beneficial across the spectrum of Cardiology. Lectures will provide a comprehensive state-of-the-art update of the clinical uses of various techniques in the diagnosis, prognosis, and management of common cardiovascular diseases.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

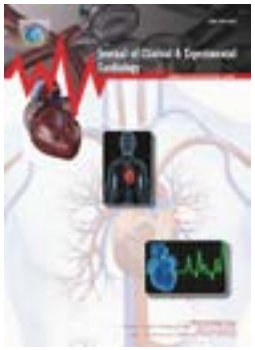

Major sessions

- Clinical Cardiology
- Cardiovascular Diseases
- Vascular Heart Diseases
- Current Research in Cardiology
- Cardiomyopathy & Heart Failure
- Interventional Cardiology
- Cardiovascular Surgeries
- Pediatrics Cardiology
- Diabetes, Obesity & Stroke
- Device Therapy
- Heart Regeneration
- Cardiac Nursing
- Case Reports
- Women and Cardiac Arrhythmia
- Cardiac Medications
- Cardiovascular Diseases During Pregnancy

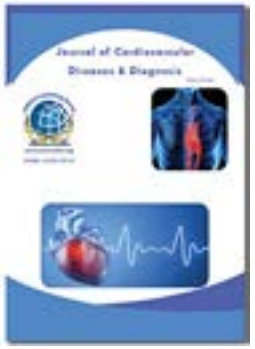

About Conference

Supporting Journals

- Journal of Clinical & Experimental Cardiology
- Journal of Cardiovascular Diseases & Diagnosis
- International Journal of Cardiovascular Research

About Rome

Rome is a city and special commune in Italy. Rome is the capital of Italy and also of the homonymous province and of the region of Lazio. With 2.7 million residents in 1,285.3 km2 (496.3 sq mi), it is also the country's largest and most populated commune and fourth-most populous city in the European Union by population within city limits. The urban area of Rome extends beyond the administrative city limits with a population of around 3.8 million. Between 3.2 and 4.2 million people live in Rome metropolitan area. The city is located in the central-western portion of the Italian Peninsula, on the Tiber within Lazio (Latium). Rome is the only city in the world to contain in its interior a whole state; the enclave of Vatican City. Rome has a status of theglobal city. Rome was the 11th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. The city is one of Europe's and the world's most successful city "brands", both in terms of reputation and assets.

Its historic centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year. Rome hosted the 1960 Summer Olympics. Although associated today only with Latin, ancient Rome was in fact multilingual. In highest antiquity Sabine tribes shared the area of what is today Rome with Latin tribes. The Sabine language was one of the Italic group of ancient Italian languages, along with Etruscan, which would have been the main language of the last three kings who ruled the city till the founding of the Republic in 509 BC. Urganilla, or Plautia Urgulanilla, wife of Emperor Claudius, is thought to have been a speaker of Etruscan many centuries after this date, according to Suetonius' entry on Claudius. However Latin, in various evolving forms, was the main language of classical Rome, but as the city had immigrants, slaves, residents, ambassadors from many parts of the world it was also multilingual.
