Dear Attendees,

We are glad to announce the 29th World Cardiology Conference to be held in Edinburgh, Scotland from November 19-20, 2018 organized by Conference Series LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

World Cardiology Conference 2018 is designed on the theme: "The Fight for Healthy Heart" that focuses to share novel approaches related to Cardiology field and exploring the challenges concerning excellence in Cardio research and advancements. The world is becoming increasingly vulnerable to public health challenges and risks for cardiac diseases bursts. World Cardiology Conference provides a unique opportunity for Academic leaders, educators and, clinicians as well as for experts and scholars of higher education from all over the world to con-vane and share novel ideas on crucial issues and trends in the area of cardiology.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the World Cardiology to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Edinburgh, Scotland this November.

Sincerely,
World Cardiology 2018
Organizing Committee

Market Analysis of World Cardiology 2018

Cardiovascular disease is the major cause of deaths affecting lives all over the world. These diseases are primarily related with heart and blood vessels disorders, such as ischemic heart disease, stroke, dyslipidemia, thrombosis, atherosclerosis, coronary artery diseases, peripheral artery disease, hypertension and others. These disorders are mainly reported due to obesity, high cholesterol, unhealthy dietary habits, lack of physical activity, smoking, excessive alcohol, and poor lifestyle. According to the World Health Organization (WHO), CVD is responsible for approximately 15 million deaths each year across the globe and it also states that it is a major cause of death in adults that accounts for 50% of total deaths worldwide.

The high risk of heart disease in the region can also be attributed to an inadequate and the high consumption of fat and carbohydrates.

Some of the other factors causing Cardiovascular Disease are

- Being physically inactive
- Being overweight or obese
- Ancestors of heart disease
- Ethnical background
- Sex – men are more likely to develop cardiovascular disease at an earlier age than women.
- Age – the older you are, the more likely you are to develop cardiovascular disease (CVD).

Market Analysis of World Cardiology 2018

The global cardiovascular device market is estimated to reach $69.3 billion by 2022, and it is forecast to grow at a CAGR of 4.3% from 2017 to 2022. This market growth is primarily driven by the growing demand for minimally invasive surgery, increasing healthcare expenditure, and growing geriatric population. The key opportunities for this market are increasing product launches and a large number of mergers and acquisitions between cardiovascular devices manufacturing companies across the world. However, lack of skilled professionals to operate these devices, stringent regulations & legislations, and a high cost of the devices & their maintenance are the key challenges faced by the market. These result in unfavorable market conditions for new players.

The market is segmented geographically into North America, Europe, Asia-Pacific and Rest of the World. North America is expected to remain the largest market during the forecast period mainly due to presence of a large size target patient pool coupled with high adoption rate for advanced treatments in this region. The U.S leads the North American market, followed by Canada. Asia-Pacific signifies the fastest growing region for global cardiovascular devices, due to the growing geriatric population and increasing awareness about various cardiovascular devices.

Some of the important Companies Mentioned in the Global Cardiovascular Devices are MAQUET GmbH & Co. KG, Sorin Group, Medtronic Inc., EndoPhotonix Inc., Terumo Corporation, SEMMT Inc., C. R. Bard Inc., Cardima Inc., Edwards Lifesciences, CyberHeart Incorporated, MedWaves Incorporated, Kardium Inc., St. Jude Medical and others.

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be
published inrespective Conference Series LLC Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

World Cardiology 2018 Conference website is attracting 25000+ cardiologists, cardiovascular experts online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

World Cardiology 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Geriatrics and Gerontological Nursing present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

About Conference

World Cardiology 2018

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in the field of Cardiology
- Discuss and apply recent research findings related to Cardiovascular diseases
- Reflect clinical uses of various techniques in the diagnosis, prognosis, and management of common cardiovascular diseases

Who should attend

29th World Cardiology Conference is exclusively designed to bring together worldwide distinguished academics in the field of cardiology, cardiovascular researchers, public health professionals, professors, academic scientists, industry researchers, scholars to exchange their ideas about research state and technologies.The aim of this conference is stimulate new ideas for treatment and analyse the current market for the future direction of cardiovascular drugs, devices, and diagnostics, with an emphasis on newer products that will be beneficial across the spectrum of Cardiology. Lectures will provide a comprehensive state-of-theart update of the clinical uses of various techniques in the diagnosis, prognosis, and management of common cardiovascular diseases.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Clinical Cardiology
- Cardiovascular Diseases
- Vascular Heart Diseases
- Current Research in Cardiology
- Cardiomyopathy & Heart Failure
- Interventional Cardiology
- Cardiovascular Surgeries
- Pediatrics Cardiology
- Diabetes, Obesity & Stroke
- Device Therapy
- Heart Regeneration
- Cardiac Nursing
- Case Reports
- Women and Cardiac Arrhythmia
- Cardiac Medications
- Cardiovascular Diseases During
- Pregnancy
- Cardiovascular Risk Factors
- Hypertension

About Edinburgh

Edinburgh is home to the Scottish Parliament and the seat of the monarchy in Scotland. Historically part of Midlothian, the city has long been a centre of education, particularly in the fields of medicine, Scots law, literature, the sciences and engineering. It is the second largest financial centre in the United Kingdom and the city's historical and cultural attractions have made it the United Kingdom's second most popular tourist destination, attracting over one million overseas visitors each year.

The city is the annual venue of the General Assembly of the Church of Scotland. It is home to national institutions such as the National Museum of Scotland, the National Library of Scotland and the Scottish National Gallery. The University of Edinburgh, founded in 1582 and now one of four in the city, was placed 23rd in the QS World University Rankings in 2018. The city is also famous for the Edinburgh International Festival and the Fringe, the latter being the world's largest annual international arts festival. Historic sites in Edinburgh include Edinburgh Castle, Holyrood Palace, the churches of St. Giles, Greyfriars and the Canongate, and the extensive Georgian New Town, built in the 18th century. Edinburgh's Old Town and New Town together are listed as a UNESCO World Heritage Site, which has been managed by Edinburgh World Heritage since 1999.
