About Edinburgh

Edinburgh is home to the Scottish Parliament and the seat of the monarchy in Scotland. Historically part of Midlothian, the city has long been a center of education, particularly in the fields of medicine, literature, Scots law, the sciences and engineering. It is the second largest financial centre in the United Kingdom and the city's historical and cultural attractions have made it the United Kingdom's second most popular tourist destination, attracting over one million overseas visitors every year.

The city is the annual venue of the General Assembly of the Church of Scotland. It is home to national institutions such as the National Museum of Scotland, the National Library of Scotland and the Scottish National Gallery. The University of Edinburgh, founded in 1582 and now one of four in the city, was placed 23rd in the QS World University Rankings in 2018. The city is also famous for the Edinburgh International Festival and the Fringe, the latter being the world's largest annual international arts festival. Historic sites in Edinburgh include Edinburgh Castle, Holyrood Palace, Greyfriars and the Canongate, the churches of St. Giles, and the extensive Georgian New Town, built in the 18th century. Edinburgh's Old Town and New Town together are listed as a UNESCO World Heritage Site, which has been managed by Edinburgh World Heritage since 1999.
