Chemistry Conferences

ConferenceSeries LLC LTD Organizes 3000+ Global Events Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 1000+ Open access journals which contains over 100000 eminent personalities, reputed scientists as editorial board and organizing committee members.

Chemistry is the study of matter, analysing its structure, properties and behaviour to see what happens when they change in chemical reactions. As such, it can be considered a branch of physical science, alongside astronomy, physics and earth sciences including geology.

15th International Conference & Expo on Chromatography Techniques

January 30-31, 2023 | Barcelona, Spain

Welcome Message

15th International Conference & Expo on Chromatography Techniques scheduled on **January 30-31, 2023** at **Barcelona, Spain**. The conference provides a platform to detail the research works of analytical expertise from various scientific backgrounds and the same can be perceived by young researchers and students. The conference mainly aims to promulgate knowledge on chromatography and unveil the advances in HPLC techniques. Both life sciences and chemical sciences need analytical techniques in course of research work and therefore Advanced Chromatography would be a perfect venue to share and develop knowledge on key analytical tools.

Advanced Chromatography 2023 Conference will bring together analytical expertise, scientific communities, business professionals, researchers, executives in a universal forum, enabling the Applications of Chromatography & Unveiling Advances in HPLC.

Market Analysis

Advanced Chromatography 2023 market is forecast to grow at a CAGR of almost 7% during 2020-2023, and the market size will increase by USD 4.75 billion during the forecast period of 2020-2023. Between 2020-2023, the chromatography market will grow at a faster pace than the overall market growth in 2023

"Exploring the Widespread Applications of Chromatography and Unveiling Advances in HPLC"

Sessions/Tracks

- Major Chromatographic Techniques
- Advances in Chromatography Instrumentations
- Chromatography as Separation Technique
- Hyphenated Chromatography Methods
- Chromatography-HPLC in Pharmaceutical
- Analytical & Bio-analytical Applications of Chromatography
- Chromatography-HPLC in Bioinformatics & Computational

Organizing Committee

Nachum Dafny
The University of Texas Health Science Center USA

Dimitris Drikakis
University of Nicosia Cyprus

Yavuz Selim SILAY
Istanbul Consulting Group, Turkey

Tirasak Pasharawipas
Rangsit University, Thailand

Mircea Ciuca
Global Head of Medical & Clinical Drug Safety at Vifor Pharma, Switzerland

Dongfeng Tan
University of Texas MD Anderson Cancer Center, USA

Supporting Journals

Journal of Chromatography & Separation Techniques
ISSN: 2157-7064 | Volume 14

Journal of Analytical & Bioanalytical Techniques
ISSN: 2155-9872 | Volume 14

Modern Chemistry & Applications
ISSN: 2329-6798 | Volume 11

Avail! CME & CPD Credits IOCM Certification
