Dear Colleagues!!

On behalf of ConferenceSeries LLC Ltd, we would like to take an immense pleasure and honor to welcome you towards upcoming **18th International Conference on World HPLC & Separation Techniques in Toronto, Canada** a metropolitan city and a heart core pharmaceutical hub in Canada region. The purpose of this 2 day conference is to bring together high profiled researchers, scholars, eminent personalities and students from both academic and industrial fields throughout the world under single roof. This will explore the link between HPLC and Separation Techniques in the field of Chemistry in the present Scenario.

Theme: Continued, Continuing & Continuable Methods for Advancing HPLC and Separation Techniques.

As we know, in this present world day to day latest innovations and discoveries are going on. Based on such issues we came forward to correlate our conference subject with reference to Chromatography, Spectroscopy, Mass Spectrometry, Separation Techniques,and Newly Emerging Techniques For Separation.

Accordingly, we would be delighted if you would share with us your views on new innovations in research and development and science education issues. You are happy to participate in Keynote Sessions, Workshops & Symposiums, Oral talks and Poster presentations. World HPLC & Separation Techniques international conference also holds several types of sponsorships in proving greater benefits to the members participating from pharmaceutical sectors, lab centers and other market dealers. Our international conference also provides a great support to the business entrepreneurs to promote their products or organization promotion in our conference hall @ Toronto by exhibiting booths.

We look forward to personally welcoming you to Our esteemed **World HPLC conference on 29-30 August, 2018 at Toronto, Canada**.

With Best Regards

World HPLC 2018 Conference is attracting 25000+ Analytical Technology and Chemistry online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series LLC Ltd Conferences differs from others?

- 3000+ Conferences across the globe in 70+ countries Annually
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

World HPLC 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

Purpose

International conference on World HPLC & Separation Techniques is an arena for interdisciplinary exchange among professionals in the fields of Chemistry and the branches dealing with all the separation techniques.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Chromatography, Spectrometry and all other related separation techniques present in the most recent research findings, which promote and enhance scientific collaborations around the world
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging techniques in Chromatography, Spectrometry and all other separation techniques
- Discuss and apply recent research findings related to Chromatography, Spectrometry and all other separation techniques
- Reflect on the place of critical distance in Chromatography, Spectrometry and all other separation techniques

Who should attend

International conference on World HPLC & Separation Techniques is exclusively designed for Researchers, Academicians, Practitioners, Early Career Scholars, students along with Industries and others engaged in endeavors related to Analytical departments and business.

About hosting organization

Conference Series LLC Ltd is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in Illinois, USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by crossref

Major sessions

- Analytical Chemistry
- Chromatography
- Separation
- Chromatographic Techniques
- HPLC
- HPLC Separation Techniques
- HPLC Instrumentations
- Hyphenated HPLC Methods
- Mass Spectrometry
- Mass Spectrometry in Biological Studies
- Mass Spectrometry and Metabolomics
- New approaches in Mass Spectrometry
- Biological Applications
- Nuclear Magnetic Resonance
- Study on Proteomics
- Pharmaceutical Separation Analysis
- Industrial Analysis
- Electro Chemical Analysis
- Thermal analysis
- Hybrid techniques
- Microscopy
- Lab-on-a-chip
