Tentative Scientific Program
NOTE: Program Schedule is subject to change with final allotment of the speaker slots
Speaker opportunities available, submit your abstract online @http://annualmeeting.conferenceseries.com/microbiologists/abstract-submission.php
Keynote Forum
Chemical Composition, an Antioxidant, Cytotoxic and Microbiological Activity of the Essential Oil from the Leaves of Aeollanthus suaveolens Mart. ex Spreng Sheylla Susan Moreira da Silva de Almeida, Phytochemistry-Federal University of Amapá, Brazil
Concentration of large volumes of water for waterborne pathogen detection using a tangential flow filtration based system Abdelfateh Kerrouche, Heriot-Watt University, United Kingdom
Natural plant products neglected yet useful: To explore the antimicrobial activities of Hamelia patens leaf extract on gram-negative and gram-positive bacteria. Muhammad Lodhi Uzair, Avalon University School of Medicine, Netherland Antilles.
Serious water shortage in the Yaounde City of Cameroon from 1970-2015 with some socio-economic implications and community responses Vince Chukwu, Institut Superieur de Technologie Medical, Cameroun
******Speaker slots Available*****
Development of a paper-based lateral flow assay for human rhinovirus detection. Felipe Duarte ,Universidad de los Andes, Colombia.
Gastric Microbiome and Ovine Microhabitat Variations in response to early and late stages of *Haemonchus contortus* Infection Saeed El-Ashram, Kafr El-Sheikh University, Egypt.
Multi Drug resistance profiles of Enterobacteriaceae responsible of urinary tract infection in Cameroon from 2010 to 2015 Ariane Nzouankeu, Centre pasteur du Cameroun, Cameroon

Phosphylated Oximes Increase Organophosphate Toxicity
Sarah Eysoldt , Florida International University, USA

Characterization of an extracellular protein, LipU from M. tuberculosis with a potential role in humoral response
Gurkamaljit Kuar, Panjab University, India

Antimicrobial effects of silver- and copper-containing nanoparticles against human pathogenic microbes; methicillin-resistant Staphylococcus aureus, extended-spectrum beta-lactamase-producing Escherichia coli, Pseudomonas
Muhammad Humaun Kabir, Karolinska Institute, Sweden.

Laboratory Diagnosis and Treatment of Yellow Fever
Pooja.Patak, Avalon University School of Medicine,Curacao.

******Speaker slots Available*****

Molecular Detection of JCV in Urine and Blood Samples of Renal Transplant Patients in Khartoum State, Sudan
Ali M. Badri, International University of Africa Khartoum, Sudan

Bacterial flora of Indian red jungle fowl (Gallus gallus murghi) semen and their sensitivity
Zartasha Zafar, Agriculture University, Pakistan

Bioprocess optimization of Lactic Acid fermentation of black carrots using functional starter culture
P.Sahota, Punjab Agricultural University, India

Characterization and risk factors of multidrug-resistant tuberculosis patients in Jiangxi areas
Kaisen Chen, Nanchang University, China

Occurrence and Biodegradation of Kerosene by Aquatic Phycomycetes from Polluted Water Bodies in Maiduguri,North- eastern Nigeria
Odu, C.E, University of Maiduguri, Nigeria

Inhibitory activity of snail mucus on bacteria obtained from infected wounds
Godwin Attah Obande, Department of Microbiology, Federal University Lafia, Nigeria
