About the conference

We are delighted to invite you to the 6th World Congress on Midwifery, Maternal Health, and Gynecology (World Midwifery Congress 2024), taking place on December 11-12, 2024, in Paris, France. This year's theme is "Advancing Women's Health with Innovations in Gynecology." We look forward to welcoming you to an event focused on cutting-edge developments and collaborative advancements in the field.

The scope of World Midwifery Congress 2024 is Midwifery, Maternal Health and Gynecology.

Midwifery is a specialized field within health science and practice focused on pregnancy, childbirth, and the postpartum period, including newborn care, as well as the sexual and reproductive health of women throughout their lives. Distinct from nursing, midwifery has its own professional training, though registered nurses can enter the field through an accelerated pathway.
