ABOUT SYDNEY

Sydney, capital of New South Wales and one of Australia's largest cities, is best known for its harbor front Sydney Opera House, with a distinctive sail-like design. Massive Darling Harbour and the smaller Circular Quay port are hubs of waterside life, with the arched Harbour Bridge and esteemed Royal Botanic Garden nearby. Sydney Tower's outdoor platform, the Skywalk, offers 360-degree views of the city and suburbs.

Because of its history as a great port and its status as the site of the country's main international air terminal, Sydney is perhaps the only city in Australia with a genuinely international atmosphere. Yet it remains a very Australian city, with a nice compromise between its British heritage and the South Seas attractions of its climate and environment.

The first sight of Sydney, whether from the sea or the air, is always spectacular. Built on low hills surrounding a huge harbour with innumerable bays and inlets, the city is dominated by the bulk of the Sydney Harbour Bridge, one of the longest steel-arch bridges in the world, and the Opera House, with its glittering white shell-shaped roofs that seem to echo the sails of the many yachts in the adjacent harbour. The intricate confusion of water and buildings makes a striking impression either by day or by night.
