About Rotterdam

Rotterdam is a city of Netherlands in south Holland within the Rhine-Meuse-Scheldt river delta at the North Sea. Rotterdam is known for the Erasmus University, its riverside setting, lively cultural life, and maritime heritage. The near-complete destruction of the city centre in the World War II Rotterdam Blitz has resulted in a varied architectural landscape, including sky-scrapers designed by renowned architects such as Rem Koolhaas, Piet Blom, and Ben van Berkel. Rotterdam's logistic success is based on its strategic location by the North Sea, at the mouth of the Nieuwe Maas channel leading into the Rhine-Meuse-Scheldt delta.The rivers Rhine, Meuse, and Scheldt give waterway access into the heart of Western Europe, including the highly industrialized Ruhr. The extensive distribution system including rail, roads, and waterways have earned Rotterdam the nicknames "Gateway to Europe" and "Gateway to the World".
