Tentative Program

27th World Oncologists Annual Conference on

Medical Oncology, Radiation Oncology and Surgical Oncology

December 7-8, 2018 Chicago, Illinois, USA

Theme: "Believe there is hope for a cure"

W: https://oncologists.cancersummit.org
E: oncologist2018@gmail.com

Welcome Message

Michael Retsky, PhD

Harvard TH Chan School of Public Health, Boston, USA

Welcome colleagues to the 27th World Oncologists Annual Conference on Medical Oncology, Radiation Oncology and Surgical Oncology. After some years with few major developments, this is an exciting time in oncology. Keeping up with developments in this rapidly changing field, all oncologists and researchers read many publications and attend conferences. I am no exception. This conference is well established and recognized as a leading platform for presentation and exchange of clinically relevant information. The thing I like best about oncology conferences is the opportunity to meet people from other countries and cultures who may discuss community based research and might have something of interest to say or provide a new perspective or research opportunity.

I edited a book on perioperative inflammation as triggering origin of metastasis development that was published last year by Springer-Nature and one of the chapters was written by a group from Nigeria. We are now proposing a clinical trial to treat breast cancer patients with a promising inexpensive and non toxic therapy. It is relevant that the Nigerian population might be the best possible group to show benefit from this therapy (early onset triple negative category).

This connection is totally the result of unplanned networking at an international conference. I recommend that you take advantage of this event and make an effort to meet and speak to people from other parts of the world. From my experience it will be a culturally and scientifically useful experience.

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement

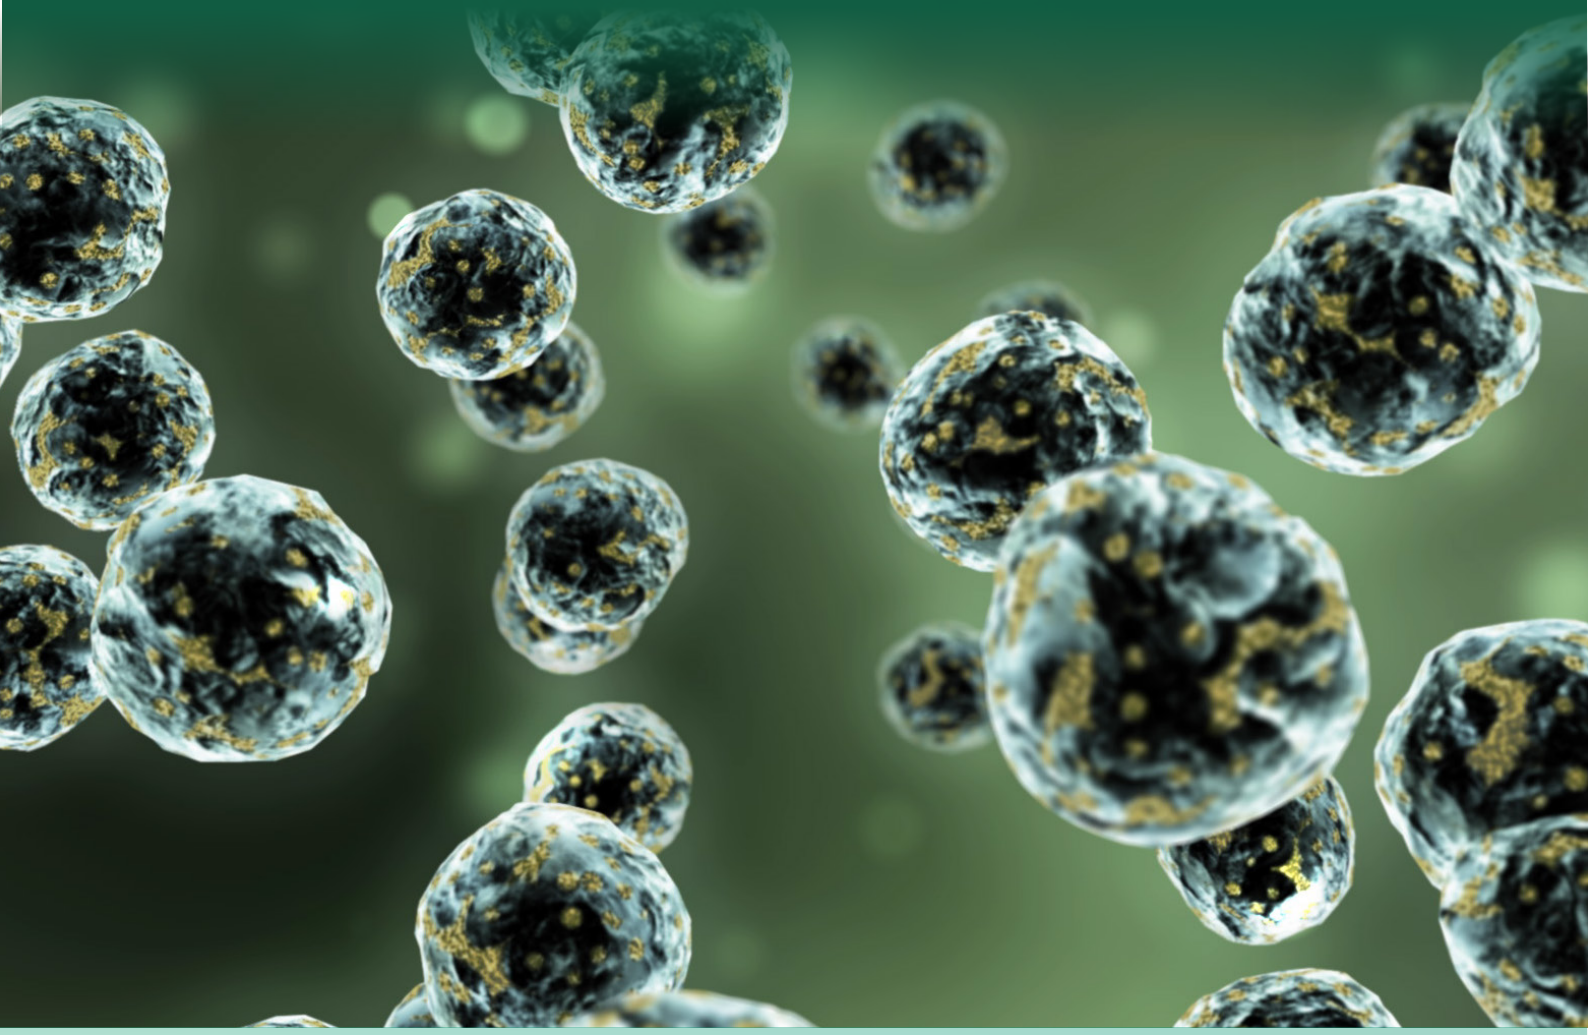

- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

Keynote Talks

Title: Synergistic combinations of chromatin modifiers as a potential treatment approach for gliomas.
Arshak R Alexanian, *Cell Reprogramming & Therapeutics, USA*

Title: Pancreatitis Aggression to Neoplasia: Lessons from Models.
Helieh S. Oz, *UK Medical Center, USA*

Title: Comparison of aspirin and ibuprofen bulk and nanoforms in peripheral lymphocytes from breast cancer patients and healthy individuals.
Diana Anderson *, University of Bradford, UK*

Title: Selective and immunomodulating effect of the anticancer preparation NSC-631570
Wassil Nowicky *, Nowicky Pharma"/ Ukrainian Anti-Cancer Institute, Austria*

Featured Speakers

Title: Personalized and Precision Oncology through the View of Translational Applications and Innovative Tools to Manage Cancer Progression
Sergey Suchkov *, Sechenov University, Russia*

Title: The Integrative Oncology: the new way to treat cancer.
Massimo Bonucci *,University of Chieti, Italy*

Title: Resistance to tyrosine kinase-targeted therapy in lung cancer: autophagy and metabolic changes
Olivier E Pardo *, Imperial College London, UK*

Title: THE PESTICIDES - CARCINOGENIC RISK FACTOR
Manuela Stoicescu , *University of Oradea, Romania*

Title: Potential of Ellagic Acid Mediated Enhanced Radiosensitivity of Breast Tumor Cells to γ Radiation in Improving Cancer Radiotherapy
K.P. Mishra, *Bhabha Atomic Research Center, India*

Title: LUNG IS LIFE - PROTECT IT
M. Prakash Rao, *India*

Title: STUDY ON ENVIRONMENTAL FACTORS CAUSING HEAD AND NECK CANCER .
ARIFA AZIZ, *Aga Khan University Hospital, Pakistan*

Title: Genetic variations in Tumor necrosis factor-related apoptosis-inducing ligand-1 (TRAIL1) and the susceptibility to B cell Non-Hodgkin Lymphoma in Egypt.
Mervat Khorshied, *Kasr Al Ainy School of Medicine, Cairo, Egypt*

Title: Implicating Immunotherapy in Myasthenia Gravis
Blessie Nelson, *Sinai Hospital of Baltimore, USA*

Title: Promoter methylation quantification of four tumor suppressor gene in papillary thyroid cancer tissues
Fatemeh Khatami, *Tehran University of Medical Sciences, Iran*

Title: A Comparative Study of Two Dose Schedule of High Dose Rate Brachytherapy In Management Of Carcinoma Cervix IIB-IIIB.
Garima Singh, *Maulana Azad Medical college, India*

Title: Circadian Rhythms, Melatonin and Cancer.
Islam, Mohammad Shahidul, *Bangabandhu Sheikh Mujib Medical University, Bangladesh*

Title: Analysis of radiation cystitis and radiation proctitis cases in patients with carcinoma cervix.
Megha Nandwani, *Dr. B Borooah Cancer Institute, India*

Title: Acute Transient Myo-Pericarditis with left ventricular dysfunction as a rare manifestation of differentiation syndrome (Atra Syndrome) in a case of Paediatric Acute Promyelocytic Leukaemia.
Rubiya Abdul Khader Nadaf, *Healthcare Global, India*

Title: Delving KS-01 as a novel therapeutic strategy in treating breast cancer.
Sourav Taru Saha,University of the Witwatersrand, *South Africa*

Title: Robotic Onco-surgery, Hypertrophic Cardiomyopathy and Difficult Airway – An anaesthetic challenge
Uma Hariharan, *Dr Ram Manohar Lohia Hospital, India*

Title: Recent advances and Innovative approaches in metabolomics for understanding drug resistance in breast cancer
Umber Saeed , *Dow University of Health & Sciences, Pakistan*

Title: Compliance with Guideline-Based Empiric Antimicrobial Therapy for Febrile Neutropenia in Adult Filipino Patients and their Effect on Outcomes.
Frederic Ivan L. Ting, *Dr. Pablo O. Torre Memorial Hospital, Philippines*

Title: A Clinicopathologic study of patients with neuroendocrine tumors who presented to the National Cancer Institute in the period from 2010 to 2014
Mohamed Zeyad ElZawahry, *Cairo University, Egypt.*

Title: Trends of Cervical Cancer in Ethiopia
Abate Migbaru Sefinew , *Ministry of Health and Social Services, South Africa*

15 Speaker slots & 4 Keynote slots available

Conference Venue

Chicago, USA

Chicago is located in the Midwest along the Great Lakes shoreline. It is the third largest city and metropolitan area in the United States with a city population approaching 3 million and a metro population approaching 10 million. Chicago is a huge vibrant city and metropolitan area that sprawls over 10,874km².

The most visited part of Chicago is its large central area, which contains neighborhoods such as Downtown, River North, Streeterville, Old Town, the Gold Coast, Central Station, the South Loop, Printer's Row, Greek Town, and the Near West Side among others. Collectively, these neighborhoods contain many skyscrapers, attractions, and highly ranked institutions. But there are also many attractions to be found in the city's other districts.

Chicago is served by two major airports: O'Hare International Airport and Midway Airport.

Tourist Destinations in Chicago, USA
