# Tentative Agenda

| |
|---|
| October 23-25, 2017 |
| Registrations |
| Opening Ceremony |
| Introduction |
| *Keynote Slots Available* |
| *Keynote Slots Available* |
| Track 1 : Glaucoma<br>Track 2 : Clinical and Surgical Ophthalmology |
| Long term outcome of selective LASER Trabeculoplasty (SLT) |
| Incidence, management and visual outcomes of haemorrhagic Descemet membrane detachment in canaloplasty and phacocanaloplasty |
| Three-Year Outcomes of Combined Phacoemulsification and Endoscopic Cyclophotocoagulation as Primary Surgical Procedure in Coexisting Cataract and Glaucoma |
| Glaucomatous Optic Nerve Head Assessment in Residency Program Using Discus Software |
| CASE REPORT: INTRACAMERAL FEMALE LOA LOA WORM INDUCED ANTERIOR UVEITIS AND SECONDARY GLAUCOMA |
| Comparison of the variation in stereoscopic vertical cup disc ratio examination with 90 D lens Vs. Cirrus SD-OCT |
| CASE REPORT: WEIGHTLIFTER – NEED TO BE CAUTIOUS ESPECIALLY HAVING PIGMENT DISPERSION SYNDROME OR PIGMENTARY GLAUCOMA |
| Systematic Review on Wound Modulation Agents in Ocular Surgeries |
| Ahmed Glaucoma Valve (AGV) Tube Insertion Technique (Graft Sparing) And Management of Rare Complications in AGV Surgeries |
| Assessment of Intraocular pressure using Ocular Response Analyzer and Goldman Applanation Tonometry before and after Penetrating Keratoplasty (PKP) |
| Orbital Teratoma: A rare congenital tumour |
| COMBINED ANTERIOR STROMAL PUNCTURE AND AMNIOTIC MEMBRANE TRANSPLANTATION FOR BULLOUS KERATOPATHY |
| WORKSHOP ON On Nutrition and Eye Disease<br>Dr. Samuel Berne, Whole Health Optometrist, United States |
| Track 3 : Ophthalmology Research and Novel Approaches<br>Track 4 : Ophthalmology Disorders |
| A rare case of ocular siderosis in a patient with retained intraocular foreign body of metallic origin in the angle |
| The Role of LaNtα31 in Corneal Limbal stem Cell Activation |
| MicroRNA and the Ocular Renin-Angiotensin System |
| A gentle medical treatment for Acanthamoeba keratitis |
| Retinal Layers Thickness Changes Following Epiretinal Membrane Surgery |
| Malignant Melanoma Invading Optic Nerve Detecting tiny extra-scleral extension and optic nerve invasion |
| Characteristics and Racial Variations of Polypoidal Choroidal Vasculopathy in Tertiary Centers in the United States and United Kingdom |
| Track 5: Neuro Ophthalmology<br>Track 6 : Pediatric Ophthalmology |
| Optic neuropathy secondary to a dolichoectatic arterial compression of the prechiasmal optic nerve |
| Selection Strategy of Different Surgical Methods for Abducens Nerve Palsy |
| Track 7 : Eye Surgery<br>Track 8 : Optometry and Vision Science |
| On Nutrition and Eye Disease |
| BREAKING THE BARRIERS IN EYE RESEARCH |
| Track 9: Ophthalmology Practice<br>Track 10 : Cataract and Refractive Surgery |
| Addressing barriers to eye health care through a collaborative integrated approach at the district level of the public health system. A case study from Takeo Province, Cambodia. |
| Lipofuscin granules of the retinal pigment epithelium: Source of free radicals and autofluorescence |
| COPPER & CORNEA |
| *Speaker slots available* |

**Note: Tentative Program has been designed with the projected Speakers Names and Titles Program schedule is subject to change with final allotment of speaker slots.**

## Major Scientific Sessions

- **Clinical and Surgical Ophthalmology**
- **Ophthalmology Disorders**
- **Pediatric Ophthalmology**
- **Glaucoma**
- **Neuro Ophthalmology**
- **Ophthalmology Research and Novel Approaches**
- **Eye Surgery**
- **Optometry and Vision Science**
- **Ophthalmology Practice**
- **Cataract and Refractive Surgery**

## Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

## Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

# About Japan

*Japan Is An Island Nation In East Asia. Located In The Pacific Ocean, Lies To The East Of The Sea Of Japan, The East China Sea , China , Korea And Russia , Stretching From The Sea Of Okhotsk In The North To The East China Sea And Taiwan In The Southwest. The Kanji That Make Up Japan's Name Mean "Sun Origin", and it is often called the "Land of the Rising Sun". Japan is a stratovolcanic archipelago of 6,852 islands. The four largest are Honshu, Hokkaido, Kyushu and Shikoku, which make up about ninety-seven percent of Japan's land area. The country is divided into 47 prefectures in eight regions. The population of 127 million is the world's tenth largest. Japanese people make up 98.5% of Japan's total population. Approximately 9.1 million people live in the core city of Tokyo, the capital of Japan. Japan entered into a long period of isolation in the early 17th century, which was ended in 1853 when a United States fleet pressured Japan to open to the West. After nearly two decades of internal conflict and insurrection, the Imperial Court regained its political power in 1868 through the help of several clans from Chōshū and Satsuma, and the Empire of Japan was established. In the late 19th and early 20th centuries, victories in the First Sino-Japanese War, the Russo-Japanese War and World War I allowed Japan to expand its empire during a period of increasing militarism. Japan is a member of the UN, the G7, the G8, and the G20 and is considered a great power. The country has the world's third-largest economy by nominal GDP and the world's fourth-largest economy by purchasing power parity. It is also the world's fourth-largest exporter and fourth-largest importer. The country benefits from a highly skilled workforce and is among the most educated countries in the world with the one of the highest percentage of its citizens holding a tertiary education degree.*

# Plan your Trip to Osaka, Japan

**Mount Fuji:**
Mount Fuji is situated on Honshu Island, is the most astounding mountain in Japan at 3,776.24 m (12,389 ft) .Mount Fuji lies around 100 kilometres (60 mi) south-west of Tokyo, and can be seen from that point on a crisp morning. Mount Fuji's outstandingly symmetrical cone, which is snow-topped a while a year, is a notable image of Japan and it is regularly portrayed in craftsmanship and photos, and also gone to by tourists and climbers.
