Market Report

Global Pharmaceutical Market

The overall $1.12 trillion market in 2022, says Evaluate, will rise at a faster clip during 2016-2020, then slow down a bit as major patent expirations take hold. (Evaluate says that the global market actually declined by 1.0% in 2015, but will grow by 4.8% this year. Prescription sales excluding generics will rise 4.4% this year, and will reach $1.006 trillion in 2022. Generics sales will increase from $73 billion in 2015 to $115 billion in 2022, and constitute 10.2% of prescription sales at that point.

Drug Discovery Technologies Market

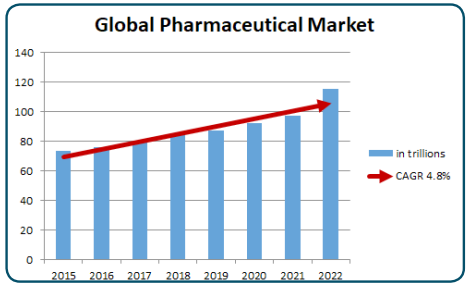

The Global Drug Discovery Technologies Market is poised to grow at a CAGR of around 12.2% over the next decade to reach approximately $160 billion by 2025. Some of the prominent trends that the market is witnessing include growing identification of combinatorial chemistry technology, regulatory initiatives fostering demand for pharmacogenomics technology, proteomics in anticancer drug discovery and human protein microarray for various protein analysis.

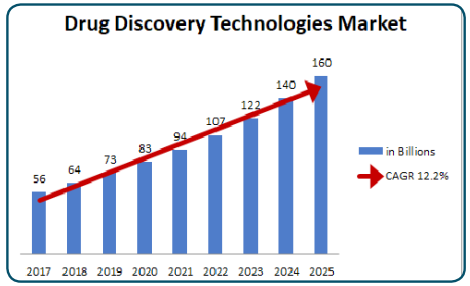

Active Pharmaceutical Ingredient Market

Transparency Market research states the opportunity in this market will be worth US$219.60 bn by 2023 from US$134.7 billion in 2015. Between the forecast period of 2015 and 2023, the overall market is expected to expand at a CAGR of 6.3%.

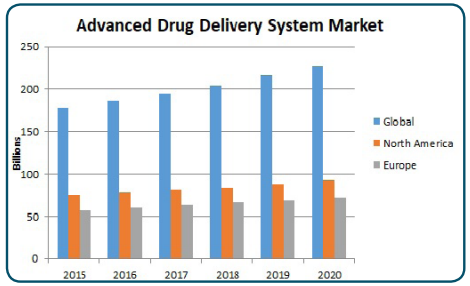

Advanced Drug Delivery Systems

- The global advanced drug delivery market should grow from roughly $178.8 billion in 2015 to nearly $227.3 billion by 2020, with a compound annual growth rate (CAGR) of 4.9%.
