2nd International Conference on
ADVANCES IN SKIN, WOUND CARE AND TISSUE SCIENCE
November 09-10, 2017 // Frankfurt, Germany

2nd International Conference on

Advances in Skin, Wound Care and Tissue Science

November 09-10, 2017 | Frankfurt, Germany

Jointly Organized in Association with

MEDITERRANEAN BURNS CLUB
IN STUDIO VICTORIA

ASSOCIATION OF PLASTIC SURGEONS OF LEBANESE DESCENT

Invitation

Dear Attendees,

We are glad to announce the **2nd International Conference on Advances in Skin, Wound Care and Tissue Science** to be held in **Frankfurt, Germany** from **November 09-10, 2017** organized by **Conference Series Ltd** in association with **Euro-Mediterranean Council for Burns and Fire Disasters** (MBC) and **Annals of Burns and Fire Disasters** (ABFD).

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Wound Care, Public health, Wound Care Nursing, Ostomy, Wound Diseases, Wound Management, End-of-life Care, Wound care Services, Elderly Abuse, Nursing Practices, Wound Care Management and will be available to discuss with you the latest issues and trends in ***The Science of Wound Healing, Management and Education: From Care to Clinical Practice.***

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Wound Congress to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **Frankfurt, Germany** this November.

Sincerely,

Wound Congress 2017

Organizing Committee

Global Advanced Wound Care and Closure Market

Market Scenario:

Regional Analysis of Wound Care Market:

The global wound care market is poised to expand from a value of US$7.53 billion in 2015 to US$10.16 billion in 2023, at a CAGR of 4.5% from 2015 to 2023. Growth of Wound care services market at geographical scales like USA, Europe, Middle East and Asia Pacific.

USA: The wound care market in USA is mainly driven by competitive pricing from players and the ability to treat chronic and acute wounds. It was valued at $ 3,467 million in 2015 and is expected to reach $4,459 million by 2023, at a CAGR of 5%. **Europe:** The advanced wound care market in Europe is projected to reach USD 2,893.3 million by 2021, at a CAGR of 6.7% during the forecast period. In 2015, Germany accounted for the largest share of this regional market. **Middle East & Asia Pacific:** Wound Care in the United Arab Emirates has witnessed 9% value growth recorded in wound care in 2015 was a better performance than the 7% value CAGR witnessed over the review period. New technology-driven product innovations launched in 2014 continued to support growth in wound care in 2015. The Asian active wound care market is the second fastest growing segment of $1.8 billion wound care market. The Asian active wound care market value was $317 million in 2014 and is expected to be $413 million by 2023, at a CAGR of 5.60%.

Key Players for Wound Care Market: 3M Company (U.S.), Baxter International, Inc. (U.S.), Coloplast A/S (Denmark.), Convatec Healthcare B.S.A.R.L (U.S.), Covidien PLC (Ireland), Derma Sciences, Inc. (U.S.), Ethicon, Inc. (U.S.), Hollister, Inc. (U.S.), Ethicon, Inc. (U.S.), Acelity L.P/ (U.S.), Mölnlycke Health Care (Sweden), Smith & Nephew (U.K.). Advanced BioHealing (U.S), Ahlcon Parenterals (Bhiwadi, Rajasthan), Alpha Beta Enterprises CoLtd(Taiwan), Arobella(USA), Alere(Chennai), AvistaCapitalPartners(USA), AvitaMedical(Australia), BARRX Medical Inc., BARRX Medical, Inc., BioMed Realty Trust, Inc., BlueSky Medical Group(UnitedStates), BoehringerWoundSystems(USA), BostonMedicalDivision(USA), BrennanMedical,Bristol-MyersSquibb, BSNMedical, CanadaPensionPlanInvestmentBoard (CPPIB), Celleration,Cellerate Rx, Celleration,Cellerate Rx, Centre for Devices and Radiological Health (CDRH), Centre for Devices and Radiological Health (CDRH), Ceradyne, Inc., China's National Tissue Engineering Center (NTEC), Clinical Cell Culture,CNS Therapeutics, Inc., Coloplast,CodeRyte, Inc., ConvaTec, Covidien, Devon Medical, E.R Squibb & Son, FocusProductDevelopmentsLtd,FraunoferInstitute,Garnet Biotherapeutics, Gentleheal ehf, HARTMANN GROUP,

The report for Global Wound Care Markets of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different markets segments and regions

The global wound care market is expected to reach USD 20.4 Billion by 2021 from USD 17.0 Billion in 2016, growing at a CAGR of 3.6% from 2016 to 2021.

On the basis of type of wound, the wound care market is segmented into chronic wound and acute wound. On the basis of end users, the wound care market is segmented into hospitals and specialty wound care clinics, long-term care facilities, and home healthcare. Based on the type of products, the wound care market is segmented into traditional wound care, surgical wound care, and advanced wound management products. Among various segments, the advanced wound management product segment

Cont...

commanded the largest share in 2015, and is forecasted to be the fastest-growing segment in the wound care market. Factors such as rising awareness regarding new technologies for wound care, government support in the form of funding, and rising diabetic and aging population are driving the growth of the wound care market.

Based on geography, the global wound care market is segmented into North America, Europe, Asia, and the Rest of the World (RoW). North America is expected to account for the largest share of the market by the end of 2016. This large share can be attributed to various factors, including the increase in acute and chronic conditions such as diabetic foot ulcers, venous ulcers, and pressure ulcers and government support for wound care research in the form of funds.

The prominent players in the wound care market are 3M Company (U.S.), Baxter International, Inc. (U.S.), Coloplast A/S (Denmark.), Convatec Healthcare B.S.A.R.L (U.S.), Covidien PLC (Ireland), Derma Sciences, Inc. (U.S.), Ethicon, Inc. (U.S.), Hollister, Inc. (U.S.), Kinetic Concept, Inc. (U.S.), Mölnlycke Health Care (Sweden), and Smith & Nephew (U.K.).

Advanced Wound Care Market (AWC Market) was valued at $7,117 million, and is expected to reach $12,454 million by 2022, supported by a CAGR of 8.3%. Advanced wound care products and traditional wound care products are used to treat acute and chronic wounds. Chronic wounds take considerable time to heal and are expensive to treat. Due to its high cost, advanced wound care has emerged as a standard solution for treating chronic wounds. Advanced wound care products are gradually replacing the traditional wound care products due to their efficacy and effectiveness in managing wounds by enabling faster healing.

The major factors attributed to the advanced wound care market growth are the rapid increase in the incidence of chronic diseases, such as diabetes, due to a change in lifestyle factors and the attempts to reduce the duration of hospital stays to bound the surgical costs. In addition, the demand for the advanced wound care market is driven by favorable reimbursement scenario, increase in healthcare expenditure by the government, and rise in inclination towards products that enhance therapeutic outcomes. However, the high cost of advanced wound care products coupled with low awareness, especially in underdeveloped countries, such as Afghanistan, Nigeria, and Bhutan, are expected to restrain the market growth.

- **Conclusion:** The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. With this increasing growth of market the dissemination of knowledge could occur only through international meetings and conferences. 2nd International Conference on Advances in Skin, Wound Care and Tissue Science happening at Frankfurt, Germany during November 9-10, 2017 would address the recent advancements happening in this field with a series of key Note, Plenary sessions, Workshops, Symposiums and discussions represented by renowned speakers from more than 40 nations.

Welcome Message

Dear All,

The **2nd International Conference on Advances in Skin, Wound Care and Tissue Science** will be organized on **November 09-10, 2017** in **Frankfurt, Germany**. Topics of this conference will include all aspects of wound care, wound healing and tissue repair. As one of the major scientific organizations interested in wound care and wound healing, the **Euro-Mediterranean Council for Burns and Fire Disasters (MBC)** and its official publication, the **Annals of Burns and Fire Disasters** have been invited to collaborate actively with the organizers for the success of this conference.

As **MBC President**, I have been invited together with several pioneers of wound healing to be part of the organizing committee. As you may be well aware, in addition to its major interest in burns management and prevention, MBC has already organized and collaborated in the organization of several local, regional and international conferences on wound care and wound healing among which are the 2nd WUWHS Meeting in 2004 in Paris, the 9th French National Conference on Wound Healing in 2005 in Paris, the 3rd Hellenic Wound Healing Conference in 2007 in Athens, the 3rd WUWHS Meeting in 2008 in Toronto, the 1st International Global Wound Care Conference in 2011 in Cape Town, the 4th International Burns & Wound Healing Symposium and Surgical Masterclass in 2013 in Hong Kong, and the Middle East Wounds and Scar Meeting in 2014 in Dubai. It is thus only natural that MBC contributes and collaborates in the organization of this conference in Milan.

I invite all **MBC members and readers of Annals of Burns and Fire Disasters** to attend and actively participate in the 2nd International Conference on Wound Care Ostomy and Continence Nursing Practices next November in Frankfurt.

Bishara Atiyeh, MD, FACS
President, MBC | APSLD

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Wound Congress 2017 Conference website is attracting **25000+ Wound Care Specialists, Wound Care Physicians** online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Wound Congress 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

Conference Website: http://woundcare.conferenceseries.com/europe/

Conference Goals and Objectives

Purpose

2nd International Conference on Advances in Skin, Wound Care and Tissue Science is an arena for interdisciplinary exchange among professionals in the fields of Wound Care, Nursing Practices,Nursing Practices,Ostomy Care.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Advances in Skin, Wound Care and Tissue Science present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Advances in Skin, Wound Care and Tissue Science
- Discuss and apply recent research findings related to Advances in Skin, Wound Care and Tissue Science
- Reflect on the place of critical distance in Advances in Skin, Wound Care and Tissue Science

About Conference

Who should attend

2nd International Conference on Advances in Skin, Wound Care and Tissue Science is exclusively designed for renowned experts working in the field of Wound Care, Vascular Surgery, Burns, Tissue repair, Regenerative Medicine, Nursing, Physiotherapy, Occupation therapy Infectious diseases, Dermatology, Public health, Nutrition, Diabetes, Oncology and more. It aims at bringing the Wound care specialist, Physicians, Pharmacologists, Academic Researchers, Surgeons, Nurses, Diabetologists, Nutritionists, Oncologists, Psychologists and other experts working in the related area of wound care to share.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by Crossref

Major sessions

- Wound Care and Infections
- Wound Care and Diabetes
- Wound Healing and Tissue Repair
- Wound Care Products
- Wound, Ostomy and Continence Nursing
- Acute and Chronic Wound Healing
- Wound care and Medical interventions
- Wound care and clinical Research
- Skin and Wound Care
- Wound Care and System based practices
- Wound care and Hyperbaric medicine
- Wound Care and patient management

Supporting Journals

- Journal of Nursing & Care (ISSN: 2167-1168)
- Journal of Stem Cell Research & Therapy (ISSN: 2157-7633)

About Frankfurt

Why Frankfurt: Frankfurt is a metropolis and the fifth-largest city in Germany. The city is at the centre of the larger Frankfurt Rhine-Main Metropolitan Region. Frankfurt is home to influential educational institutions, including the Goethe University, the UAS, the FUMPA, and graduate schools like the Frankfurt School of Finance & Management. Its renowned cultural venues include the concert hall Alte Oper, Europe's largest English Theatre and many museums. Today, Frankfurt am Main is an important international financial centre and an important industrial, service and exhibition centre. The airport is one of the largest in the world, the main railway station is a central railway junction and the Frankfurter Kreuz is the most frequented road junction in Germany. It has more than 30 museums. Frankfurt is on the Main river. The city's name means ford of the Franks - a ford is a place in a river where it is so shallow that you can walk through it, and the Franks were a Germanic people which existed in the first millennium. Frankfurt is a very international city. Every third inhabitant is not German. Most immigrants come from south-eastern Europe, Turkey and North Africa, but there are people from almost every country living in Frankfurt. There are also many international business companies here, and the big airport links Frankfurt with many countries in the world. Many banks are based in Frankfurt, and the city has some of the tallest buildings in Europe.

Frankfurt Attractions:

Frankfurt Main Tower, The Römerberg, The Old Opera House, Palm Garden, Hauptwache, St. Paul's Church, Goethe House and Museum, Senckenberg Natural History Museum, The Frankfurt Museum of Modern Art, St. Bartholomew's Cathedral, Zoo Frankfurt, The Museum District, The Eschenheimer Tower.
