Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

Best Tourist Destinations in Rome, Italy

About Rome, Italy

The central-western portion of the Italian Peninsula, Rome is a special comune of Italy. It is the most famous vacation spot in Italy. This city is proud of its ancient glorious heritage. It is one of the most famous tourist destinations of the world, because of its archaeological and artistic treasures, as well as for the charm of its unique traditions. Top tourist attractions are Colosseum, St. Peter's Basilica, Pantheon, Vatican Museums, Trevi Fountain, Roman Forum, Castel Sant'Angelo, Piazza Navona, Campo de' Fiori and many more. December is one of the best times of the year to visit Rome, Italy when the city experiences cold and damp weather. At this time of year, the average temperature starts off at 10°C. The city experiences an average of six hours of sunshine each day. With a cool average sea temperature of 16°C toward the coast, it's unlikely you'll be spending days by the beach during your visit. It is a city of collection of art, sculpture, fountains, mosaics, frescos, and paintings. During ancient Rome it was a major artistic centre, with forms of important Roman art such as architecture, sculpture, painting, and mosaic work, Metal-work, coin die and gem engraving, ivory carvings, pottery, figurine glass and book illustrations are considered to be 'minor' forms of Roman artwork. Later it became a major centre of Renaissance art.
