Demystifying silence through the eyes of an HIV+ Escape Artist. Our work is far from over

Daniel Bauer
Successor to the legendary escape artist Harry Houdini, New York

Abstract

A time comes when burn out and fatigue in the wars waged against HIV/AIDS takes a toll on scientists, researchers, case managers, therapists, activists and every other human being who is whole heartedly dedicated to eradicating the world-wide HIV/AIDS pandemic. Imagine as a child your dream of being a doctor, an actor, a lawyer or even a magician is taken from you in the blink of an eye because an unexpected HIV diagnosis sparks fear causing those, who have supported your dreams, to run in the other direction, leaving you hopeless and lifeless. Our work is far from over. Now is the time for each of us to remove the silent gap of communication in our respective efforts and weave into harmony a fiber of teamwork that will deliver a powerful advance in the wars on HIV/AIDS (medical and stigma). Silence no more! Demystifying that silence will come to life with one of the most unparalleled, engaging soul-piercing experiences that will forever inspire your service to this fight, renewing both personal and professional calls to action like never before. Attendees will walk away with first-hand results of how breaking the silence and working together truly does improve the lives of those living with HIV/AIDS.
