Addiction Research & Therapy

July 22-24, 2013 Las Vegas, USA

Innovation in addiction treatment - Making treatment better through technology

Adi Jaffe
Alternatives Addiction Treatment, USA

Abstract

Technology has entered our lives in more ways than we could have ever imagined and drives much of what we do. In this workshop, Dr. Jaffe will cover some of the latest advances in addiction treatment relevant technology. Topics covered will include tech-based screening and assessment, referral to treatment tools, treatment provision and aftercare. Dr. Jaffe will examine a number of specific examples of such tools and help attendees discover how technology can help them make their practice better.

Biography

Adi Jaffe completed his Ph.D at from The University of California in Los Angeles and postdoctoral studies from UCLA's Semel Institute for Neuroscience and Human Behavior. He is the co-founder and executive director of research for Alternatives Addiction Treatment, a premier outpatient SUD treatment provider in Beverly Hills, California. He also founded and developed the first algorithm-driven SUD treatment-search tool that was used in the described study. He has published more than a dozen papers in reputed journals and serves on the editorial boards of a number of SUD journals.
