Revolution needed in homoeopathic pharmacies

Amit Dhavalikar

Virar Homoeopathic Medical College, India

Abstract

1) Difference of techniques in preparation of Homoeopathic Medicine as compared to Allopathic and Ayurvedic preparations.
2) The need of quality Homoeopathic Medicines has been the need since birth of Homoeopathy.
3) Homoeopathic Medicines are prepared from various sources i.e. Vegetable Kingdom, Animal Kingdom, Mineral Kingdom & so on.
4) As far as India is concerned the Asian countries are gifted with the blessings of nature but other sources are becoming difficult.
5) Homoeopathic Medicines are not only becoming exotic but are not prepared due to unavailability of raw-materials i.e. Mineral Kingdom.
6) To establish a Homoeopathic Pharmacy not only means that we are the suppliers to the doctors as well as the common people.

But it has been observed that not only it is very difficult but also very cumbersome to reach the common people, reasons are in numerable.

7) Every Homoeopathic doctor should have the knowledge of preparation as well as the patents which are available in the preparation of Homoeopathic Pharmacy.
8) As far as India is concerned the Central Homoeopathic Council has provided various research opportunities for the development of New Homoeopathic Medicines but living apart few genuinely interested people no one has taken any effort for this venture.
9) Major Metro polition city like Mumbai, Calcutta, Uttar Pradesh (states) have the availability of Homoeopathic Medicines but still other states need to improve the situation. Everything rest on the hands of good pharmaceutical companies to develop.
10) Changes are required from our i.e. Homoeopathic Pharmacies regarding giving information to the patients as how Homoeopathic Medicines also act with the same efficacy as that of other school of medicines.
11) Changes are also required from Government for improving and helping the society by projecting Homoeopathic Science effectively (Media and Advertisement).
