Ayurveda in neurological disorder

Avinash Shankar

National Institute of Health & Research, India

Abstract

Neurological manifestations like Epilepsy, paralysis and neuropathies are very common and of poor therapeutic outcome,is prevalent encumbursum inspite of amrked advancement in diagnostic facility and a broad arena of therapeutics.

Survey and study conducted by India Epilepsy forum affirms mental and physical debility among epileptics due to recurrent convulsion even with therapeutics and some succumbed to death .

Paralysis either due to hypertension leading to Cerebrovascular accident(CVA),Lower motor neuron lesion(LMN) and spinal cord affliction inspite of various measures, quality of life even with treatment is not very much i, proved inspite of advanced diagnostic and physiotherapeutic measures.

Conditions like brain stem lesion posses no option even in the present scenario of advances in medical and surgical sciences. As per documented literature neural cells are considered non regenerative and present therapeutics can help only in tissue preservation , degeneration or necrosis and apoptosis.

Thus with an intent to provide some therapeutic response in the neurological disorder ,role of Ayurveda is assessed at RA. Hospital & Research Centre and Centre for Indigenous medicine and Research, Warisaliganj (Nawada) Bihar, India.

Biography
