Theme:

Recent Advances and Future Trends in Biopolymers

EuroSciCon

10th Biopolymer

2019

Invitation

Welcome to Singapore City, and experience the science of Biopolymers & Bioplastics illuminated as never before. EuroSciCon is proud to host the 10th Edition of International Conference on Biopolymers & Bioplastics, May 29-30, 2019 in Singapore City, Singapore. This year's theme is Recent Advances and Future Trends in Biopolymers. 10th Biopolymer 2019 will provide an unprecedented opportunity for researchers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite researchers, academicians and industry professionals and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Conference is the perfect venue not only to dive into your particular Biopolymers & Bioplastics interests but also to expand the scope of your knowledge. Tracks are devoted to subjects such as the Natural Polymers & Its Phenomenon, Gifts From Biopolymers And Bioplastics To Natural Science, Materialize Biopolymers, Bio-Plastics: Boon Or Bane, Betterment In Biopolymers, Bio-Informatics, Compostable Materials And Biodegradability, Tissue Based Research On Biopolymers, Biopolymers And Its Green Synthesized Products, Usefulness Of Microbial Cellulose And Bio-Fibers Day To Day Us, Of Biopolymer & Bio-Plastics, Plastic Fouling And Its Treatment, Contingency Of Biopolymers, Waste Management And Reuse Processes, Imminent Ambit Of Biopolymers.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ researchers and academicians accessing the website, Biopolymers & Bioplastics 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

10th Biopolymer 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

Singapore

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

2019

Who'd be attending?

10thEdition of International Conference on Biopolymers & Bioplastics plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Eminent Scientists of Chemical Engineering & Polymer Technology Bioplastics, Biomaterial, Bioprocess Research Professors and research fellows Students from Material science, Chemical Engineering, Polymer Technology Directors of Plastics Manufacturing, Materials Manufacturing companies Biodegradable Engineers, Materials Processing Engineers, Chemical Engineers Members of different Bioplastics, Biomaterials associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Natural Polymers
- Advanced Biopolymers
- Bioplastics
- Bioinformatics
- Biopolymer Applications
- Biopolymers as Materials
- Green Composites in Biopolymers
- Biopolymers for Tissue Engineering and Regenerative Medicine
- Biodegradable polymers
- Biopolymers in Biomedical Applications
- Recycling & Waste management of
- Biopolymers
- Biopolymers in Biofibers & Microbial Cellulose
- Biopolymer Feed Stock Challenges & Opportunities
- Future & Scope of Biopolymers
- Biopolymer Companies & Market

EuroSciCon

See your work Published
in one of our related journals

- Journal of Polymer Science
- Journal of Organic & Inorganic Chemistry

About Destination Singapore

Singapore,officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies one degree (137 kilometres or 85 miles) north of the equator, at the southern tip of the Malay Peninsula, with Indonesia's Riau Islands to the south and Peninsular Malaysia to the north. Singapore's territory consists of one main island along with 62 other islets. Since independence, extensive land reclamation has increased its total size by 23% (130 square kilometres or 50 square miles). The country is known for its transition from third world to first world in a single generation, under the leadership of its founding father, Lee Kuan Yew.

Stamford Raffles founded colonial Singapore in 1819 as a trading post of the British East India Company. After the company's collapsein 1858, the islands were ceded to the British Raj as a crown colony. During the Second World War, Singapore was occupied by Japan. It gained independence from the UK in 1963 by federating with other former British territories to form Malaysia, but separated two years later over ideological differences, becoming a sovereign nation in 1965. After early years of turbulence and despite lacking natural resources and a hinterland, the nation developed rapidly as an Asian Tiger economy, based on external trade and its workforce.
