Plan A Trip To Rome: Destination Of Acupuncture Congress 2019

Rome is one of the planet's most beautiful city, a shining light which has illuminated the torso of southern Europe for many centuries. Rome is the capital city of Italy located in the central western position of Italian peninsula along the shores of the river Tiber. It is also known as the Eternal city and also Caput Mundi, coming from Latin and the meaning is Capital of the World. The population of the city is around 2.7 million. The Vatican City is an independent country inside the city boundaries of Rome, the only existing example of a country within a city. For this reason, Rome has been often defined as capital of two states. Rome has the status of a global city. In 2016, Rome ranked as the 14th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy.

Architecture, Culture & Entertainment

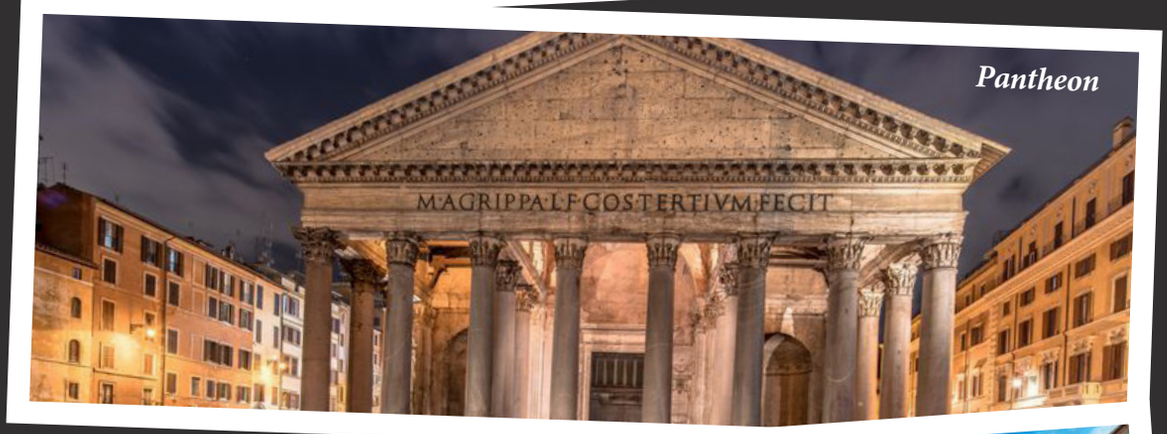

Rome is one of the most important tourist destinations of the world, due to the incalculable immensity of its archaeological and art treasures, as well as for the charm of its unique traditions, the beauty of its panoramic views, and the majesty of its magnificent Villas. Among the most significant resources: plenty of museums like Capitoline Museums, the Vatican Museums, Galleria Borghese, and a great many other aqueducts, fountains, churches, palaces, historical buildings, the monuments and ruins of the Roman Forum, and the Catacombs.

Roman culture is an eclectic mix of high culture, the arts, fashion and historic architecture. Daily life centers around enduring traditions rich in religion and food. It is this contrast of historic and modern culture and traditions that defines Rome as the Eternal City. Rome is an important centre for music, and it has an intense musical scene, including several prestigious music conservatories and theatres. Rich in history, beauty and culture, it has been an inspiration to countless generations of visitors. Even now, after nearly three thousand years, its appeal and charm are as strong as ever. Every year, tourists continue to flock to Rome in their millions, you can be sure that they will not be disappointed.
