

EuroSciCon

3rd Edition of International Conference on

Adolescent Health & Medicine

August 12-13, 2019
Rome, Italy

Theme:

Current emerging trends to Improve Adolescent Health

Invitation

Euroscicon is proud to host the **3rd Edition of International Conference on Adolescent Health & Medicine happening during August 12-13, 2019 in Rome, Italy.** The conference is themed around **"Current emerging trends to Improve Adolescent Health"** with the aim to bring together a wide audience of industry, healthcare, research, and medical practitioners to educate and bring about a fruitful debate on the confined topics.

Adolescent Health Conference 2019 will be a great event to network, learn and engage with professionals in the field of Adolescent Health and Medicine.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant toxicological forum in person is your active participation.

Best Regards ,
Organizing Committee
Adolescent Health 2019

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Adolescent Medicine Specialists and Adolescent Health Care Professionals accessing the website, Adolescent Health 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

August 12-13, 2019
Rome, Italy

Adolescent Health 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A tim
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

2019

Who'd be attending?

3rd Edition of International Conference on Adolescent Health & Medicine plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently business analysts, medical representatives and healthcare providers.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Adolescent Health
- Adolescent Nutrition
- Adolescent Pregnancy
- Adolescent Neurology
- Adolescent HIV
- Adolescent Epidemiology
- Adolescent Surgery
- Adolescent Pathology
- Adolescent Psychology
- Adolescent Oncology
- Adolescent Care
- Adolescent Drug Addiction
- Adolescent Nursing
- Adolescent Infectious Disease
- Adolescent Cardiology
- Adolescent Emergency Medicine
- Adolescent Forensic Medicine
- Adolescent Nephrology
- Adolescent Oesteology

Rome, Italy

About Destination Rome, Italy

Italy is an European country with a long Mediterranean coastline, has left a powerful mark on Western culture and food. Its capital, Rome, is a homonymous province and home to the Vatican as well as landmark art and ancient ruins. The region of Lazio in Rome has an approximate 2.7 million residents. It is the country's largest and most populated commune and fourth-most populous city in the European Union by population within city limits. The city is in the central-western portion of the Italian Peninsula, on the Tiber within Lazio (Latium). Rome has the status of the global city. It is the only city in the world to contain in its interior a whole state; the enclave of Vatican City. Rome is the 11th most visited city in the world,3rd most visited in the European Union and the most popular tourist attraction in Italy. The city is one of Europe's and the world's most successful city "brands", both in terms of reputation and assests.

It is a sprawling, cosmopolitan city with nearly 3,000 years of globally influential art, architecture and culture on display. Ancient ruins such as the Forum and the Colosseum evoke the power of the former Roman Empire. Vatican City, headquarters of the Roman Catholic Church, has St. Peter's Basilica and the Vatican Museums, which house masterpieces such as Michelangelo's Sistine Chapel frescoes. Rome's history spans more than two and a half thousand years. While Roman mythology dates the founding of Rome at only around 753 BC, the site has been inhabited for much longer, making it one of the oldest continuously occupied sites in Europe.

The city's early population originated from a mix of Latin's, Etruscans and Sabine's. Eventually, the city successively became the capital of the Roman Kingdom, the Roman Republic and the Roman Empire, and is regarded as one of the birthplaces of Western civilization and by some as the first ever metropolis. It is referred to as "Roma Aeterna" (The Eternal City) and "Caput Mundi" (Capital of the World), two central notions in ancient Roman culture. After the fall of the Western Empire, which marked the beginning of the Middle Ages, Rome slowly fell under the political control of the Papacy, which had settled in the city since the 1st century AD, until in the 8th century it became the capital of the Papal States, which lasted until 1870.

Climate: April is a great time to visit Rome, Italy, when there's a refreshing chill in the air. At this time of the year, the average temperature starts off at 12°C and increases to 15°C toward the end of the month. During this time of year, the city is subject to around 65mm of rainfall spread across 13 days, so there is a fair chance you'll experience a shower or two during your holiday. On the other hand, Rome also enjoys ten hours of sunshine each day and an average sea temperature of 15°C toward the coast which is more than warm enough to enjoy a dip during your holiday.

Rome was a poem pressed into a city – Anatole Broyard.

Easter at Vatican City, Rome: April 21st marks the founding of Rome, also known as Rome's birthday. The biggest and best celebrations are held on the weekend closest to the 21st and include musical concerts and parades. Various historical re-enactments are held at the Circus Maximus – the place where chariot races used be held, whilst the Colosseumhosts firework displays and gladiatorial performances.
