

EuroSciCon

International Conference on

Advanced Materials and Simulation

December 10-12, 2018
Rome, Italy

Theme:

Innovating for the future: Progress on the Grand Challenges in the Stream of Material Science

Invitation

Welcome to Rome, the most populous region, urban zone and metropolitan area in the United Kingdom and experience the novel technologies of materials science and Crystallography as never before. EuroSciCon is proud to host the International Conference on Advanced Materials and Simulation. This year's theme nanotechnology is Innovating for the future: Progress on the Grand Challenges in the Stream of Material Science. Advanced Materials 2018 will provide an unprecedented opportunity for materials scientist and chemical engineers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Material scientists, nanotechnologists, research professors and scientists in related chemical engineering disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Advanced Materials conference is the perfect venue not only to dive nanotechnology structure interests but also to expand the scope of your knowledge. 15 tracks are devoted to subjects such as the Nanoceramics and Nano composites,

Nanophotonics,Nanopolymers,Surface Engineering,Characterization of Composites,Adhesive Bonding,Friction Processes,Catalysis and Electrochemistry,Nano Tribology,additive manufacturing,Spintronic Materials.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant materials science and Advanced Materials 2018 forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

December 10-12. 2018
Rome, Italy

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ toxicologists and pharmacologists accessing the website, Euro Toxicology 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Advanced Materials 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

December 10-12, 2018
Rome, Italy

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

International Conference on Advanced Materials and Simulation plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Research Professors/ Nanotechnologists, Physicists/Chemists, Junior/ Senior research fellows of Materials Science/ Nanotechnology, Materials Science Students, Directors of chemical companies, Materials Engineers, Members of different materials science and crystallography associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Advancement in Nano materials and Nanotechnology
- Simulation of Materials Processing and Technologies
- Particular and Fiber Composites
- Adhesives and Joining Technologies
- Surface Coatings and Tribology
- Failure Analysis and Preventions
- Additive Manufacturing
- Biomaterials
- Construction Materials
- Electrical, Optical and Magnetic Materials
- Polymer Science and Engineering
- Finite Element analysis of Automotive, aerospace structure

2018

About Destination Rome

Rome is the capital city of Italy. It is the most populous region, urban zone and metropolitan area in Europe. A heady mix of haunting ruins, awe-inspiring art and vibrant street life, Italy's hot-blooded capital is one of the world's most romantic and inspiring city to visit.

Rome, is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transport all contributing to its prominence. It is one of the world's leading financial centers and has the eighth largest metropolitan area GDP in the world depending on measurement. One of the most famous fountains in the world, the Trevi Fountain is in Rome. It is the world's most-visited city as measured by international arrivals and is the world's most romantic city as named by tourists. Michelangelo may be one of the most famous artists of all time. And many of his most famous works are in Rome. On your visit to Vatican City alone, you can see Michelangelo's paintings in the Sistine Chapel, and his sculpture of the Pietà. Rome is an immediate proximity to other sites, cities and beaches. Rome's Fiumicino international airport is one of the main airports in Italy and in Europe.

Rome has a diverse range of peoples and cultures, and more than 300 languages are spoken within its boundaries. It is a major center of higher education teaching and research and its 52 universities form the largest concentration of higher education in Italy. Rome contains four World Heritage Sites: Coliseums-also known as Flavian Amphitheatre, St. Peter's Basilica, Sistine Chapel and Pantheon also Capitoline and Vatican Museums. Other famous landmarks include Bocca della Verità, Spanish Steps, Piazza Venezia, Altare della Patria, Trajan's Market, Doria Pamphili Gallery, MAXXI, Sant'Ignazio Church, Rome and numerous other Roman architectures.
