

EuroSciCon

EuroSciCon Conference on

Advanced Nanotechnology

April 22-23, 2019
Athens, Greece

Theme:
Advancing the Future for Nanotechnology

EuroSciCon

Advanced Nanotechnology

2019

Invitation

Welcome to Athens, the histoarical capital of Europe, and experience the science of Nanotechnologyilluminated as never before. EuroSciCon is proud to host the EuroSciCon Conference on Advanced Nanotechnology, April 22-23, 2019 in Athens, Greece. This year's theme is Advancing the Future for Nanotechnology. Advanced Nanotechnology 2019 will provide an unprecedented opportunity for Researchers and scientists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Advanced Nanotechnology Conference is the perfect venue not only to dive into your particular Nanotechnology interests but also to expand the scope of your knowledge.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant toxicological forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

April 22-23, 2019
Athens, Greece

EuroSciCon

Advanced Nanotechnology

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

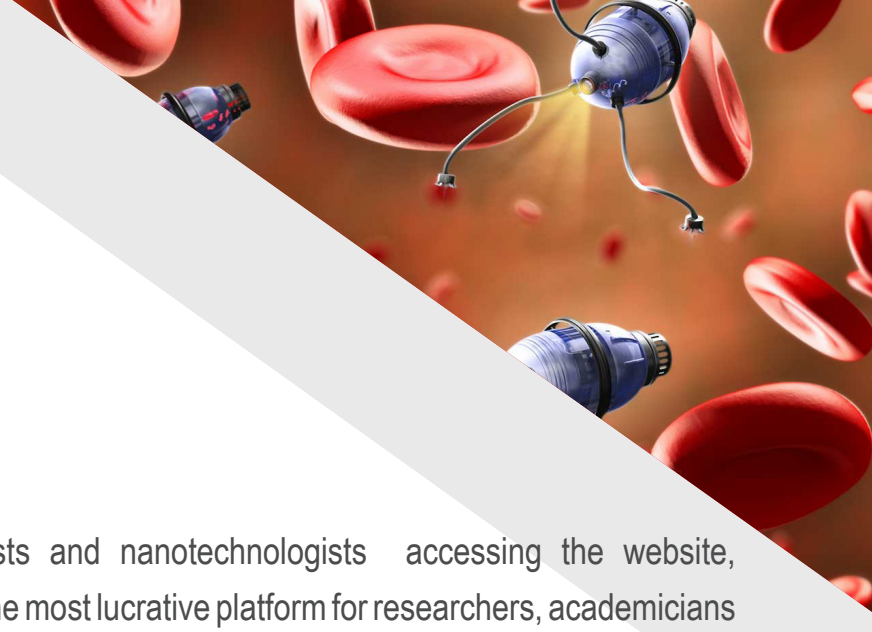

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Materials scientists and nanotechnologists accessing the website, Advanced Nanotechnology 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Advanced Nanotechnology 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

April 22-23, 2019
Athens, Greece

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Advanced Nanotechnology

2019

Who'd be attending?

EuroSciCon Conference on Advanced Nanotechnology plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Research Professors/ Nanotechnologists, Physicists/Chemists, Junior/Senior research fellows of Materials Science/ Nanotechnology/ Polymer Science, Materials Science Students, Directors of chemical companies, Materials Engineers, Members of different Materials science associations, Members of different nanotechnology associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Nanotechnology
- Nanomaterials
- Materials Science
- Medical Nanotechnology
- Advanced Nanomaterials
- Nanobiotechnology
- Pharmaceutical Nanotechnology
- Cancer Nanotechnology
- Graphene
- Graphene & 2D Materials
- Carbon Nanotechnology
- Nanodevices and Nanosensors
- Nanorobotics
- Nanochemistry
- Molecular Nanotechnology
- Plant Nanotechnology
- Nanoelectronics and Nanophotonics
- Power modules: Nanotechnology Applications
- Nanotechnology in Solar Cells
- Space Nano Technology
- Nano Fibers
- Nano Fluidics
- Nano particles
- Applications of Nanotechnology
- Nano-biomaterials
- Nanotechnology safety and risks
- Future of Nanotechnology

About Destination Athens, Greece

Athens is the capital and greatest city of Greece. Athens summons the Attica territory and is one of the world's most settled urban networks, with its recorded history navigating over 3,400 years and its soonest human closeness starting some place near the eleventh and seventh thousand years BC. Conventional Athens was a serious city-express that rose in conjunction with the seagoing progression of the port of Piraeus, which had been a specific city before its fifth century BCE meld with Athens. An inside for human articulations, learning and rationale, home of Plato's Academy and Aristotle's Lyceum, it is by and large suggested as the help of Western improvement and the starting point of popular government, as it were, because of its social and political impact on the European terrain, and particularly the Romans. In introduce day times, Athens is a broad cosmopolitan city and basic to fiscal, cash related, mechanical, maritime, political and social life in Greece. In 2012, Athens was situated the world's 39th wealthiest city by getting influence and the 67th most costly in a UBS consider.

Athens is an overall city and one of the best money related concentrations in southeastern Europe. It has a far reaching money related part, and its port Piraeus is both the greatest voyager port in Europe, and the second greatest on the planet. The Municipality of Athens (moreover City of Athens) had a masses of 664,046 (in 2011) inside its administrative cutoff focuses, and a land zone of 38.96 km2 (15.04 sq mi). The urban zone of Athens (Greater Athens and Greater Piraeus) extends past its definitive city limits, with a masses of 3,090,508 (in 2011) over a district of 412 km2 (159 sq mi). As indicated by Eurostat in 2011, the utilitarian urban domain (FUA) of Athens was the ninth most packed FUA in the European Union (the 6th most swarmed capital city of the EU), with a people of 3.8 million people. Athens is in like manner the southernmost capital on the European landscape.
